EXCLUSIVE PERFORMANCE FOR PREMIUM DEALERS

We brought you our hardest hitting, bad to the bone, nail biting, can't believe it's this good exclusive dealer-only line of all-new compound bows. Our 2019 lineup of ultra-competitive models up the ante on performance and can't be found anywhere else.

LEGEND
SERIES

FORGET EVERYTHING YOU THOUGHT YOU KNEW

You'll never look at Bear Archery the same way again. We introduce the Perception, the first bow of its kind, a shoot-through engineered with all the performance of a target shoot-through in a small hunting bow package. This limited edition bow weighs only 4.3 lbs. and shoots 350 feet per second.

A DEADLY COMBINATION

This hybrid cam bow launches arrows at 345 feet per second, and offers a smooth draw and a high-level of forgiveness. Featuring the Bear Cage machining technique, the rigid 1"-thick forged riser has been strategically "hollowed out" to lighten the load – yet still prevents side to side flex increasing accuracy.

PREMIUM PERFORMANCE, LONGER DRAW

By popular demand, the extremely popular and deadly Kuma is now offered in a longer draw. The Kuma LD offers the same premium performance, speed, and comfort of the Kuma, now with a 27" to 32" draw length range for our extra tall brethren.

THE EXCEPTION TO THE RULE

We've all heard "you get what you pay for," but the Approach HC is the exception to the rule. Named Outdoor Life Magazine's Great Buy Bow of the Year, the Approach HC has features of a bow that should cost hundreds more in one incredible package.

WELCOME TO THE MAIN EVENT

Smoother than they need to be. Faster than they should be. At Bear Archery, we strive to create bows that continue to improve the shooting experience across the archery industry. We introduce this year's line of bows featuring incredible adjustability and customizability for the price paid. Your Bear bow will be a best friend that you can take anywhere and won't let you down when you need it the most.

YOUTH

THE FUTURE BEGINS HERE

For 85 years, Bear Archery has proudly been America's #1 brand in youth and institutional archery. By designing equipment to specifically fit the needs of youth and intermediate shooters, we're working to keep the future of the sport bright for years to come. It's never too early to share Bear with the next generation of archers.

WARRIOR

Modeled after adult compound bow designs, the Warrior is the perfect transition youth bow for young children to adolescents. With a 24 to 29 lb. peak draw weight, this right-hand only bow can help better prepare and train youth for the future.

Includes Whisker Biscuit,
the safest rest in the archery industry
– a \$40 value

RECREATIONAL

STAY ON TARGET

This sport is a way of life. It takes us outside the house into the backyard with our families. It's about a target, a few arrows, some practice, and some laughs. It cleanses our souls and brings an enjoyment unlike any other. At Bear Archery, we offer a full line of recreational gear because we know success is both an afternoon well spent with friends and confidence in the field.

ALL IN ONE ARCHERY CART

The cart is made from rugged 1" 18 gauge steel tubing with an all-weather durable black powder coat, weather resistant zinc plated hardware and 6" diameter heavy-duty, all-terrain molded caster wheels.

Cart Includes:

- (3) Foam targets
 - (3) 36" (10 Ring) target faces
 - (3) Tripod target stands
 - (3) Titan bows
 - (3) Firebird bows
 - (72) 28" Safetyglass™ varned arrows
 - (6) Armguards
 - (6) Shooting gloves (3) medium,(3) large
 - (3) Ground quivers
 - (1) "ABC's of Archery" manual
- A4400** W: 25" D: 53" H: 28 1/2"

ROUND TARGET FACES

These tough, long-lasting skirted target faces are spun with heavy-duty waterproof fabric and screened with a 10 ring multi-colored ink that is weather and UV resistant.

- A36RD** 36 - 40" diameter
- A48RD** 36 - 48" diameter

SQUARE TARGET FACES

Target faces are long lasting, weather and UV resistant, and made of heavy-duty waterproof material.

- A48SQ** 36 - 48" diameter

FOAM TARGET

Our best targets are constructed of 100% self-healing foam. Targets are resistant to wear, waterproof, UV resistant, and impervious to insects. These targets are reversible, boosting the life of your targets-offering you better value.

- 10 Ring face included
- Perfect for adult and traditional bows

- A736** 36" diameter, 6" thick
- A748** 48" diameter, 6" thick

WHEELED BLACK TARGET STAND

The stand is easy to move, sturdy, and stable with a durable powder coat finish. For use with 36" and 48" targets.

TRADITIONAL

LEGENDS LIVE ON

More than 80 years ago, a man named Fred Bear decided to follow his passion and start a bow-making company. He was the ultimate sportsman, skilled and respectful of Mother Nature, and he sought to convey those attributes through the most innovative, satisfying, and effective bows ever made. Today, we are proud to continue what Mr. Bear started and our products are still built by hands he instructed. His spirit, vision, and craftsmanship have stood the test of time. So here's to you, Papa Bear. Thank you for setting an example for generations of shooters and for sharing the passion that's still with us today.

LIMITED EDITION BOW SERIES

With Fred Bear's inspiration, Bear Archery proudly presents the Limited Edition Take-Down, the second bow in a series of four Limited Edition bows. This Take-Down, measuring 60" AMO, will be an A riser with number 3 limbs made of beautiful Macassar Ebony and figured African Bubinga veneer limbs. The limited-edition bow comes complete with a custom leather embossed case.

THE LEGEND CONTINUES

FUTUREWOOD™

In the 1970s, Fred Bear introduced FutureWood, a manufacturing process that gives completely new physical properties to the wood in the handle section. Because of the high demand from customers, Bear reintroduced the process to the Bear line in 2013. A pressurized vacuum fills all the natural pores in the wood increasing its weight and strengthening it. After baking, the handle is virtually impossible to warp, check, or crack, and all the grain and original beauty of the natural wood are intact.

BIRTHMARKS

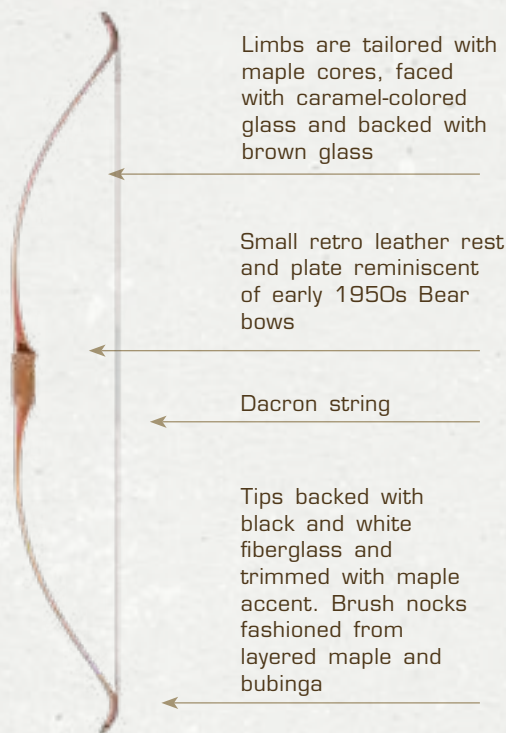

You may notice some lighter areas on the FutureWood handle of a new Bear bow. These light areas appear only where the natural wood underneath is strongest. Birthmarks give each FutureWood handle section an identity of its own; no two are alike. Birthmarks form where the pores of the natural wood are closest together, thereby filtering out some of the injected material.

STATIC K-4

This 64-inch static tip bow is a rebirth from 1952. Its sleek narrow design is reminiscent of a long bow with a recurve static tip that retains its shape during the draw cycle of the bow packing a powerful punch.

SUPER KODIAK

After 17 years of production, the Super Kodiak replaced the very popular Kodiak line of bows. Fred Bear used this model bow for many years. Few bows of any kind reward the hunter with such a classic combination of feel, power, and sheer shooting authority.

FEATURES

- 60" AMO length

KODIAK

Ask around about Bear bows, and you'll hear tales of the legendary 59 Kodiak. Throughout the years, Bear has been asked to "bring it back." Out of respect, we were convinced the 59 Kodiak could never be duplicated. But, like Mr. Bear, we believe in giving people what they want.

Limbs are fashioned with maple cores, faced with caramel colored glass and backed with a brown glass skillfully radiused for precision shooting

Large profile leather rest plate and forgiving feather arrow rest

Supple leather grip

Tips layered with brown and white fiberglass and hand-finished to accommodate modern bow strings

CHEYENNE

The Cheyenne was a collaboration between father and son - Grant Neil Byce II, Mr. Bear's retired master bowyer, and Grant Neil Byce III, Bear Archery's director of operations. The bow's length handles the swept-back style limbs of the Take-Down, while the grip is designed to feel full in hand while incorporating the half-moon styling reminiscent of Fred's favorite bows of the early 60s.

KODIAK MAGNUM

Modeled after the original, famous Kodiak bow, the Magnum was first introduced in 1961 as a bowhunter's dream due to its short length and ease of maneuverability. The nimble, versatile design struck a chord with hunters who value its blend of agility and power.

Overlaid clear maple limb cores, backed and faced with high-strength "Grayling Green" fiberglass

Crowned, cut-on center arrow shelf with leather side plate and bear hair arrow rest

SUPER GRIZZLY

The Original Super Grizzly was available in the mid-1970s and was reintroduced in 2011 to the delight of archers who prefer a smooth-shooting feel. The Super Grizzly's performance is based, in part, on two layers of lamination in the limbs for a better shooting bow without hand shock.

FEATURES

- 58" AMO length

CONSTRUCTION

- 1 Black maple 2-piece riser with inlaid red accent stripe
- 2 Additional layer of maple laminate in limb construction
- 3 Grip capped with fiberglass

GRIZZLY

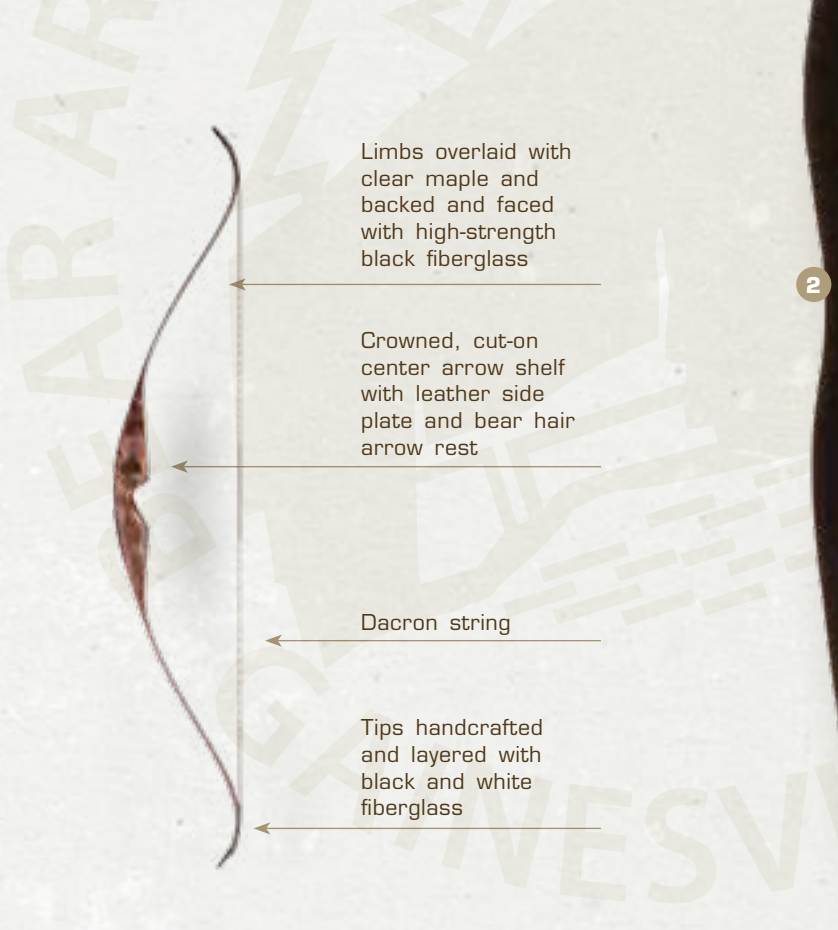

The Grizzly is one legendary bow that has been proving itself since 1950. Mr. Bear made the last design change to the Grizzly in 1964. The value-priced bow is designed for big performance and is a sure shooter for any skill level.

FEATURES

- 58" AMO length

CONSTRUCTION

- 1 Brown hard-rock maple 1-piece riser
- 2 Grip capped with fiberglass

Limbs overlaid with clear maple and backed and faced with high-strength black fiberglass

Crowned, cut-on center arrow shelf with leather side plate and bear hair arrow rest

Dacron string

Tips handcrafted and layered with black and white fiberglass

SUPERMAG 48

In 1966 Bear introduced an effective, comfortable 48" hunting bow, proudly called the Super Magnum 48. Today, it remains a proven performer for those who need a short hunting bow ideally suited for hunting out of ground blinds and tree stands, or as a lethal bowfishing tool.

FEATURES

- 48" AMO length

CONSTRUCTION

- 1 Bubinga riser
- 2 Slim, form-fitting grip
- 3 Grip capped with fiberglass

KODIAK CUB

This 48" traditional youth bow was originally known as the Little Bear and was introduced in 1965. This is a smooth-shooting youth bow and is great for teaching archery fundamentals in a laminated bow in a quality just like mom and dad's.

FEATURES

- 48" AMO length
- Made for beginning shooters

CONSTRUCTION

- 1 Brown hard-rock maple 1-piece riser
- 2 Grip capped with fiberglass

AU SABLE

The Au Sable longbow, aptly named after Michigan's famous Au Sable River, was introduced in 2011. It's been well received by longbow enthusiasts due to its reflex/deflex design, larger sight window, full-radiused grip, and cut-on center arrow shelf.

2

FEATURES

- 64" AMO length

CONSTRUCTION

- 1 Exotic bubinga 2-piece riser with inlaid matching accent stripe
- 2 Reflex / deflex design

MONTANA

The Montana longbow was first introduced in the late 90s and has become a very popular addition to an already proven lineup. The bow's slightly reflexed design, tapered limb lamination, and new slimmer tips make this longbow big on performance and value.

1

FEATURES

LUCK IS FOR GUN HUNTERS

For you, there is no luxury of a 300-yard shot. The possibility of magically stumbling across a 180" buck doesn't exist. It takes months of planning and prep. An iron will. Trust in your instincts, and above all, absolutely precise gear. At Trophy Ridge, we believe every one of our products should give you a distinct advantage. Deadly accurate. Lighter weight. Smart, hunt-inspired reasons for each product's existence. Anything less is a waste of your time, and ours. Because this game isn't about getting lucky, it's about knowing you can rely on the best bowhunting gear made when the time for release finally comes. Trophy Ridge has the tools bowhunters trust.

TROPHY RIDGE

THE WHISKER BISCUIT

TRIED AND TRUE.

“If it ain’t broke, don’t fix it.” This adage is the purest of truths for the Trophy Ridge Whisker Biscuit. There’s one on your father’s bow, your child’s bow, your neighbors’ bows, and on strangers’ bows a few miles away and across states and states. It’s the world’s most-popular arrow rest and a staple for a reason. The Whisker Biscuit is the most reliable, dependable, and safest rest available. There have been many imitators, but there’s only one original.

YOU ASKED

AND WE ANSWERED

Q DOES IT CAUSE SIGNIFICANT SPEED LOSS?

A No. Extensive chronograph testing has proven that the Whisker Biscuit does not cause significant speed loss. On average, it was found to be only a one foot per second decrease.

Q HOW DO IMITATION CAPTURE RESTS COMPARE TO THE WHISKER BISCUIT?

A There is no other "full" capture rest on the market. The Whisker Biscuit is the original and only full-capture rest. While other knock-offs provide sub-standard or partial containment, the Whisker Biscuit delivers 100% full-containment of your arrow.

Q DOES IT AFFECT ACCURACY?

A No. You can count on the Whisker Biscuit to deliver precise, consistent results shot after shot from any distance.

Q DOES IT WORK IN COLD WEATHER?

A Whisker Biscuit performance is not affected by the cold. The whiskers have the same effect on the arrow, regardless of outside temperature.

- Adjustable launcher arm pitch
- Durable 100% aluminum construction
- Curved edge launcher arm to protect your hand during a long day of shooting

REACT TECHNOLOGY

REACT
TECHNOLOGY

2 PINS & DONE

DOWNRIGHT EASY.

When it's this effortless, you'll wonder why it took so long to own one. After only 2 pin adjustments, Trophy Ridge's exclusive React Technology™ automatically sights in your pins. With a simple turn of an integrated knob or using an Allen wrench, we bring you a tool both incredibly easy to use and incredibly accurate.

PHOTO | HuntCo

After only 2 pin adjustments, Trophy Ridge's exclusive React Technology™ automatically sights in the remaining pins to the optimal location for dead-certain accuracy at any distance. The most refined sight system on the planet accurately predicts what each pin gap will be based on the distance between your 20-yard pin and any other yardage.

TROPHY RIDGE

GETTING REACT® SIGHTED IN

React® sights separate into two main categories – single pin sights with yardage indicators and multi-pin sights. Regardless of what type of sight you choose, sighting it in is easy. Follow the steps below.

REACT® SINGLE PIN

3 EASY STEPS

1. Sight in your 20-yard pin using the advanced tool-less micro-click windage and elevation knobs.
2. Next, step back to 30 or 40 yards and zero your next mark using the elevation drive knob.
3. Turn the master adjustment knob until the pointer on the sight lines up with the corresponding yardage indicator. Once you have 2 yardage marks accurately sighted in, all of your indicators are set.

REACT® ALPHA

REACT® ONE PRO (dovetail option shown)

REACT® TRIO

4 EASY STEPS

1. Ensure that the sight is in the upmost position with the arrow pointing at the first indicator. Sight in the bottom vertical pin at 40 yards using the tool-less micro windage and elevation adjustments.
2. Next, step back to 50 or 60 yards and zero your bottom vertical pin using the elevation drive knob.
3. Turn the master adjustment knob until the pointer on the sight lines up with the corresponding yardage indicator. Once you have 2 yardage marks accurately sighted in, all of your indicators out to 100 yards are set.
4. Return the sight to the upmost position before sighting in the 20 and 30 yd pins. Now sight-in your 20 and 30 yard pins without moving your indicators or your micro windage and elevation.

REACT® TRIO PRO

REACT® MULTI PIN

2 EASY STEPS

1. Sight in your 20-yard pin using the advanced tool-less micro-click windage and elevation knobs.
2. Next, step back to 30 yards and zero your next pin at that distance using the master adjustment screw. Once you have 2 pins accurately sighted in, all of your pins are set.

AFL220

SWIFT

The Swift is just as smooth as it sounds. This three-finger handle and crisp trigger is a great hunting and target release. With its stainless-steel, knurled trigger that is adjustable for any hand, left or right, and trigger travel for a wide range of trigger adjustments, this release is all about comfort.

FLETCH HOOK

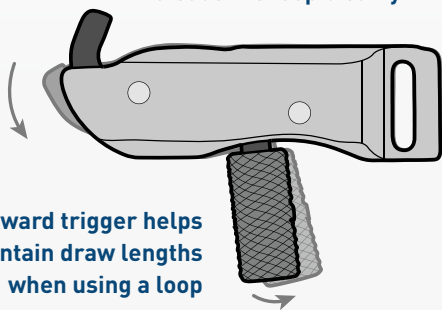

The Fletch Hook is infinitely adjustable. This release is available with a removable, knurled sleeve that slides over the trigger pin offering a unique feel for the shooter and is available in two wrist strap styles – buckle strap and nylon with hook and loop closure. The Fletch Hook is loop-only and features a roller system for the ultimate smooth performance.

Fletcher **TRUPEEP**[®]

The world's first and favorite peep sight, the Fletcher Tru-Peep is all-aluminum with a legendary design that allows for a perfectly round, shaded hole at full draw. The Tru-Peep eliminates the need for protruding hoods and is kept in place by a reliable safety-tie groove. The Tru-Peep is available in eight sizes and five colors.

NEVER SETTLE FOR A HIT AND RUN.

We have no hesitation saying the **F4** is the most accurate fixed blade broadhead on the market today. This 4-blade, all stainless steel broadhead delivers time and time again with its 27-degree razor-honed blade angle, producing a 1.350" cutting diameter and a 3.350" cutting surface. Featuring a .040" blade thickness, the **F4** gives you a silent, balanced flight and refuses to settle for "almost."

WARNING

Using Rocket Broadheads will result in serious blood loss and drop your game in seconds.

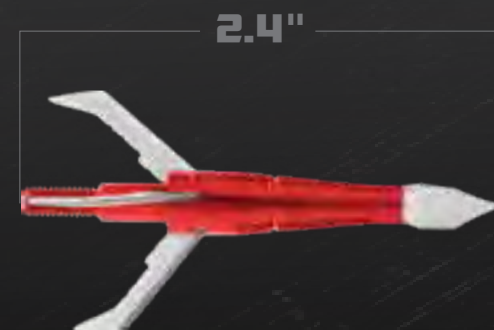

At Rocket, we're not here to tell you the hunt is all about the peace and serenity you can only find in the great outdoors. While the disconnection from the outside world is one of our favorite hunting perks, we know why you're really out there - to wrap your tag around that trophy you've been longing for all season. So, get out there, hit your mark and leave a crimson trail.

LARGER TIP DESIGNED FOR **BONE-SPLINTERING** PENETRATION

SUPER SHARP BLADES

SIDEWINDER XT

Stay out of the way. This three-blade, blood-pressure dropping mechanical broadhead produces a lethal 1.5" cutting diameter and bone-splintering penetration creating a 2.205" cutting surface. This broadhead's super sharp blades and larger tip were designed for massive cutting and deep penetration.

A person wearing a grey t-shirt and a red bandana is holding a large fish. The t-shirt has a logo that says "Cajun BOWFISHING" with a fish illustration. The background is a bright, outdoor setting.

IF BOWFISHING IS AN OFF-SEASON SPORT, THEN WE ARE THE BOYS AND GIRLS OF SUMMER.

We live for the nature, the comradery that comes along with being on the bank or in a boat with our close friends for hours on end, the feeling we get in the pit of our stomachs when the swirl of the water reveals a record-breaking beast so close we can almost feel the fight it's about to put up, the summer sun grazing our skin as a snicker of excitement escapes our mouths and brushes past our strings as we draw the perfect release. We were made for this. And, everything we make is made for you.

At Cajun Bowfishing, we do everything we can to push the envelope to make sure everyone's bowfishing experience is as enjoyable as ours is, summer after summer. Our equipment is ruggedly field tested to meet the highest standards, our products are backed by our No Refraction Warranty and we create usable technology available to everyone. We continue to take steps in innovation to ensure we are constantly bringing new technology to the table while keeping products affordable, so your off-season can look like ours.

SUCKER PUNCH

Bowfishing Bow

LIKE AN OLD, HOT-HEADED FRIEND the Sucker Punch has your back. Despite being light and perfectly balanced, it packs a mean punch that can only be found on the toughest, most durable bowfishing bow on the market. With a 15 to 50-pound draw weight range, it provides smooth, easy shooting and feels like it was made for you and built for times when you need a little back-up.

WINCH PRO

Bowfishing Reel

BOWFISHING IS NOT A WALK IN THE PARK. These River Monsters are unforgiving. They're not afraid to get dirty and give your equipment every ounce of fight they've got. The Winch Pro takes the punishment, gets right back up and asks for more. With its revolutionary design, this reel holds the ability to brake and reel simultaneously to better bring the monsters up from the depths of their hideaways and into your boat, day after day and night after night.

FEATURES:

- Fighting Wheel Brake allows you to brake and reel simultaneously
- Adjustable durable ceramic string guide for smoother string feed
- Fighting Brake allows you to winch fish back to the boat
- Revolutionary reel design allows for one-handed operation
- 25 yards of 250 lb. test high visibility white line
- Rugged aluminum frame for superior durability
- Vertical and horizontal adjustments allow the perfect fit on any bow
- Solid aluminum mounting brackets and stainless steel hardware stand up to the toughest conditions
- Anti-reverse prevents tangling

RTF KIT INCLUDES:

- Cajun Brush Fire Arrow Rest
- Cajun Winch Pro Bowfishing Reel
- 2 Red Fiberglass Piranha Arrows

AFR1450 - Winch Pro Reel

ABF5050 - Winch Pro Reel Kit

SPIN DOCTOR

Bowfishing Reel

THE DOCTOR IS IN. And, it just happens to be the most durable, rugged and innovative spin-cast bowfishing reel on the market. The Spin Doctor is designed to endure the rigors bowfishing doles out every day on the water. It features dual pickup pins with full metal assembly, a longer hood and larger hole design for better line feeding.

FEATURES:

- Cajun bowfishing spinning reel with pre-spooled 150 lb. fast flight line
- Longer hood design and larger hole for better line feeding
- Dual pickup pins with full metal assembly
- Faster pickup for faster reeling
- One-sided handle prevents tangling

RTF KIT INCLUDES:

- Cajun Brush Fire Arrow Rest
- Cajun Spin Doctor Bowfishing Reel
- Cajun Red Reel Seat
- 1 Red Fiberglass Piranha Arrow

AACL1800U - Spin Doctor Spin-cast Reel

arrow slides

- Helps prevent arrow snap back from tangled lines by keeping the line in front of the arrow rest at all times
- Single attachment point makes changing arrows much easier
- Larger slide prevents pass through to hold fish more effectively
- Designed for use with 5/16" diameter shafts
- Includes resilient slide, hard stop and stainless steel mounting screw
- 5 pack

ABF5202N

Aluminum Spinning
reel mount

- For mounting a spin-casting reel to the bow stabilizer bushing
- Threaded end provides for a fishing rod attachment

ABF4025

Cajun Premium
bowfishing line

- 25-yard spool of premium fishing line
- Smaller diameter than most bowfishing line, but significantly stronger
- Superior resistance to wear or breakage
- 250 lb. test

ABF5025

NEW! Slide Rings
arrow slides

- Stainless steel rings are perfect for all types of water conditions
- Small footprint allows these rings to be used where space is limited

ABF5203N

CAJUN BOWFISHING NO REFRACTION WARRANTY

Cajun Bowfishing equipment is strategically engineered for hard core bowfishing.

All product is rigorously tested to exceed any boat rockin', fin floppin', or slime droppin' one might face. Our product is built to last. No buffalo carp too big, or gar too slimy. Cajun Bowfishing equipment ensures countless hours of worry-free bowfishing fun. Don't give us flack on misses, that's operator error.

Warranty Claims can be submitted by emailing us at customercare@cajunbowfishing.com or by giving us a call at 1-800-694-9494.

Please provide any information concerning alleged defective parts, if you have photos we want to see those too! Start Stik'n with Cajun Bowfishing.
