Vibration Reduction System™
An improved for 2022 Vibration Reduction System (VRS) helps stabilize and reduce lingering riser vibration by up to 25% from the motion of shooting an arrow allowing for a smooth and quiet shot

EKO Cam Technology
allows let off customization to four different positions (75%, 80%, 85%, or 90%)

Align Lok™ Technology works in conjunction with bow sight to aid in aligning second and third axis levels

Ships with the new **GRIZGRIP** for a more relaxed and natural grip on the bow and the popular **VERSAGRIP™**

KillerWave™ Limb Dampening System
New for 2022, KillerWave limb dampeners reduce noise and hand vibration in every shot.

REFINE

Introducing the 2022 flagship from Bear Archery, the Refine EKO. With a forgiving 33" axle-to-axle and 6 3/8" brace height, the Refine EKO was designed to be more precise and accurate on the range or in the woods. The Refine EKO features an all-new GRIZgrip with a relaxed and natural feel that will ship in conjunction with the popular VERSAGRIP™. Additionally, new performance derived KillerWave limb dampeners and an enhanced Vibration Reduction System (VRS) will further enhance the Refine EKO's shootability. Within the bow's riser, shooters will find Bear's ALIGNLOK Technology which works with any bow sight to aid in aligning second and third axis levels. Experience blazing arrow speeds of 342 FPS and class leading stability in every shot with the Refine EKO from Bear Archery.

This 31" axle-to-axle bow hits the sweet spot for ultimate maneuverability and supreme accuracy making it the perfect choice for any tree stand, hunting blind, or spot and stalk scenario. This lightweight bow is only 4.1 lbs. and the 6.25" brace height makes for the ultimate shooting experience. The Redemption EKO ships with the VERSAGRIP™ for a smaller profile and reduction in torque and NAROG RIP™ to fit your hand precisely for a more accurate shot along with a limb stop to dial in your custom fit and feel. The VRS dampening system helps stabilize and reduce lingering riser vibration from the motion of shooting an arrow.

Meet the new 2022 Whitetail Legend Pro, arguably the best value bow with its impressive specs, EKO cam system, and unbeatable price. This bow was designed and engineered for ultimate performance in bowhunting spaces. Never worry about your bow getting in the way of a perfect shot again. This compact 30" axle-to-axle bow sports patented EKO Cam technology with an unprecedented four let off settings that allow you to hold at full draw for as long as it takes for that bruiser to come in view. The new for 2022 KillerWave limb dampeners reduce vibration and increase accuracy with every shot. The Whitetail Legend Pro features Bear Archery Contraband string and cables ensuring legendary performance for seasons to come.

The Whitetail Legend is a nod to the classic Whitetail Hunter bow first introduced by our founder Fred Bear in the 1970s. The Whitetail Legend is exactly what you need to grab before you head off to the woods to bring home your next trophy or supply of meat. Every time you draw back, you'll feel our draw stop giving you the most solid back wall experience of a single cam on the market. Upon release, you'll experience the blazing fast speeds of 320 feet per second. It was Mr. Bear's mission to make archery accessible to everyone by offering his bows at a fair price and that's exactly what we're doing again today with the Whitetail Legend compound bow.

ALASKAN

In the 1950's and 60's, Bear Archery produced the ALASKAN - a bow with performance the industry had never seen at an unbeatable value. For 2022, the ALASKAN returns with a spin. This technology and performance packed 32" axle-to-axle bow comes equipped with an all-new DHC hybrid cam. The DHC hybrid cam system features a relaxed 80% let off without sacrificing Bear's signature draw cycle smoothness. The new KillerWave in-limb dampeners assist in eliminating vibration and improving accuracy in each shot. The 2022 ALASKAN offers respectable arrow speeds up to 335 FPS and an incredible amount of adjustability in draw length from 25.5"-31".

LEGIT
SPECIAL EDITION

The Legit's broad adjustability and incredible value has made it one of the most sought after bows on the market today. For 2022, Bear Archery is bringing back the "Throwback" Legit as an exclusively model available only at Bear Authorized Dealers. The nostalgic throwback finish features Fred Bear Camo limbs with either an olive green or shadow black riser. The bow offers the same remarkable adjustability from a 14" to 30" draw length and from 10 to 70 lbs. draw weight. All adjustments can be made without the need for a bow press. The bow comes ready to hunt equipped with Trophy Ridge accessories – a Joker 4-pin sight, 5-Spot quiver, V-Biscuit, No-tie peep sight & D loop. The Legit weighs an incredible 3.8 lbs. and blasts arrows down range at 315 feet per second. The 2022 Legit's dual cam system provides a class leading smooth draw cycle.

LEGIT
SPECIAL EDITION

For 2022, Bear Archery is introducing two new limited production Legit models exclusively available at Bear Authorized Dealers, the Desert Throwback and Ghost. The Throwback edition sports a light tan riser and Veil Whitetail camo limbs. The GHOST edition is a light grey finish that was offered in limited numbers last winter and sold out within the first few days of its release. The limited production Throwback and GHOST Legits offer the same great performance and adjustability the industry has come to know and love. This lightweight and performance packed compound offers respectable arrow speeds up to 315 FPS IBO. The bow accommodates draw lengths from 14" to 30" and draw weights from 10lbs to 70lbs without the need of a bow press to be adjusted. The Legit's 3.8lb mass weight makes it maneuverable and perfect for spot-and-stalk or blind hunting enthusiasts. The bow comes ready to hunt equipped with Trophy Ridge accessories – a Joker 4-pin sight, 5-Spot quiver, V-Biscuit, No-tie peep sight & D loop. The 2022 Legit's dual cam system provides a class leading smooth draw cycle.

TROPHY RIDGE

LITE 1 PRO

The goal was to create a lighter, more accessible, and more compact quiver. The Lite-1 Pro has all the features that make a premium quiver a fast and deadly partner on the hunt - all at less weight. It's the lightest, most versatile quiver yet, and possibly the most capable quiver ever built.

FEATURES:

- Ballistix CoPolymer® construction
- Braided hanging rope for bow or detached quiver
- Customizable mounting bracket fits the quiver higher or lower on the bow
- Dual arrow grippers for fixed or mechanical broadheads

1 bright green LED light inside the hood

3 bright green LED lights on top of the hood

TROPHY RIDGE

REACT RETALIATE®

The Retaliate horizontal 5-pin sight features our exclusive React® Technology and an aluminum mounting bracket for extreme durability. No other sight gives you the speed and precision of the React® sights. Faster to sight in and impossible to be inaccurate, React Technology sights will make you a better shooter!

FEATURES:

- Five .019" horizontal-pin sight featuring innovative React® Technology

- Reduces vibration while maintaining light-weight strength with Ballistix CoPolymer® System
- Make easy corrections with advanced tool-less micro windage and elevation adjustments
- Strengthen accuracy over longer distances with 2nd axis adjustment

TROPHY RIDGE

TRILOGY®

Take precision to the next level with the Trophy Ridge Trilogy sight. Each pin is micro-adjustable to consistently provide unparalleled accuracy at all ranges. Yardage adjustments are made with the extended slider which maximizes your shooting range starting at 20 yards. The Delrin bushing eliminates metal-to-metal contact resulting in a smooth, quiet movement. The Trilogy perfectly balances precision with superior durability and strength utilizing an aluminum mounting bracket.

FEATURES:

- Dependable precision with micro-adjustable pins
- Ultimate visibility with ultra-bright .019 horizontal fiber optic pins
- Adjust brightness to suit any shooting condition with the rheostat light
- Includes on-board adjustment tool, rheostat light battery, aluminum mounting bracket and quiver mounting hardware for an easier quiver set up

**FASTER. QUIETER.
DEADLIER THAN EVER.**

For more than 85 years, Bear Archery has worked to design, engineer, and craft bows that give archers everywhere the best shooting experience. It was Fred Bear's sole mission to bring the industry equipment that not only presented remarkable innovation and performance, but remained affordable and accessible. We are honored to introduce this year's lineup of bows that continue to offer unbeatable adjustability and value added features at an industry leading price point, just as Fred Bear would have done.

NEW

ESCALATE

For 2022 we're turning up the heat. Introducing the all-new Bear Archery Escalate. This technology packed 31" axle-to-axle bow offers insane performance at an unbeatable price. The Escalate features Bear's patented EKO cam technology and accuracy enhancing Vibration Reduction System. For 2022, this top tier bow receives Bear's new KillerWave™ limb dampeners and a vibration eliminating string stop to further cut down on post shot hand shock. The Escalate offers astonishing speeds up to 339 FPS and accommodates shooters with draw lengths from 26" to 30". The bow's all-new for 2022 GRIZgrip offers shooters a comfortable and relaxed hold on the performance engineered riser. The 4.1 lbs mass weight along with the 6.5" brace height make the Escalate nimble and manageable in both spot and stalk or tree stand scenarios. Take your bowhunting to a new level this year and experience the Bear Archery Escalate.

RESURGENCE LD

Calling all big and tall. Meet the answer to your bowhunting needs - the 2022 Resurgence LD. A bow designed specifically to comfortably suite draw lengths longer than 30 inches. This performance-packed, lightweight, and versatile bow has draw length adjustability from 25 to 32 inches. The Resurgence LD has a forgiving 32" axle-to-axle and features Bear's successful 80% single cam system. The Resurgence LD also comes equipped with the 2022 vibration eliminating KillerWave™ in-limb dampening system that leaves the bow feeling dead-in-hand after every shot. With amazing accuracy and arrow speeds up to 310 FPS, the Resurgence LD offers an ultra-smooth draw cycle making it perfect for the long draw bowhunter.

Horizontal lines for contact information or notes.

PARADOX

The Paradox is a high-performance single cam system that shoots 330 feet per second delivering maximum performance at an incredible price in a maneuverable 32" axle-to-axle platform. The innovative riser and ShockWaves limb dampening device are designed to improve accuracy and reduce vibration with each shot. The Paradox features Bear Archery Contraband string and cables ensuring legendary performance for seasons to come. With premium finishes and features of a compound bow that would cost hundreds more, the Paradox disrupts the price to performance ratio.

SPECIES EV

Meet the new and improved 2022 Bear Archery Species EV. Derived from the fan-favorite Species, the Species EV is an EVOLUTION to the popular single cam bow with an impressive 80% let off. Tipping the scale at only 3.8lbs with its 30" axle-to-axle and 6 3/4" brace height, the Species EV is a compact, smooth, and lethal option for the hardcore bowhunter. For 2022 the Species EV offers more adjustability with a 23.5" - 30.5" draw length and either 45-60lb or 55-70lb limbs. The Species EV comes as a Ready-to-Hunt (RTH) bundle which includes a Trophy Ridge Joker 4-pin sight, Whisker Biscuit V, Blitz stabilizer and wrist sling, lightweight 5-Spot quiver, D-loop, and peep sight. This single cam bow offers arrow speeds up to 320 FPS and features new for 2022 KillerWave limb vibration dampeners to increase accuracy in every shot.

LEGIT

Meet the Bear Archery Legit – this compound bow is made to legitimately fit all ages and skill levels. We've engineered this bow to be adjustable from a 14" to 30" draw length range and from 10 to 70 lbs. peak draw weight. All adjustments can be made using an Allen wrench and there is no need for a bow press. The bow comes ready to hunt equipped with Trophy Ridge accessories – a Joker 4-pin sight, 5-Spot quiver, Whisker Biscuit, No-tie peep sight & D loop. The Legit weighs only 3.8 lbs. and fires arrows at 315 feet per second. The new and improved dual cam system provides a smooth draw cycle. This bow is legit.
