

**EVERYTHING IS  
DIFFERENT.  
AND NOTHING HAS  
CHANGED.**

In 1933, Fred Bear started what would become one of the most iconic and successful archery companies in history. Today, we remain devoted to the founding principles and vision that Fred laid more than 85 year ago. The 2022 lineup of traditional equipment sees a number of improvements and additions, all while carrying on the legacy of the Bear name.

*Fred Bear*  
**Take Down**

First introduced by Fred Bear more than 50 years ago, the Bear Take Down was a modern and innovative design that revolutionized the archery industry. The 2022 Take Down is available in two timeless wood finishes: Black Maple with a phenolic black stripe or Bubinga and phenolic with an inlaid phenolic black stripe.

Limb cores made with maple laminate and overlaid with high-strength black fiberglass

Crowned, cut-on center arrow shelf with leather side plate and bear hair arrow rest

Dynaflight 97 Flemish Twist string

Tips handcrafted and layered with fiberglass

**Features**

- A-Riser with #1 Limbs = 56" AMO
- A-Riser with #2 Limbs = 58" AMO
- A-Riser with #3 Limbs = 60" AMO
- B-Riser with #1 Limbs = 60" AMO
- B-Riser with #2 Limbs = 62" AMO
- B-Riser with #3 Limbs = 64" AMO
- Available in LH & RH

**Construction**

1. 3-piece black maple riser with a black accent stripe
2. 3-piece African bubinga and phenolic riser with a black accent stripe
3. Patented Fred Bear latch and socket take-down system
4. Riser capped with fiberglass accents

# Mag Riser

Back by popular demand, the Mag Riser returns for 2022. We've paired the all-new Mag Riser with the classic Fred Bear Take Down design for easy transportation. The new Mag Riser features an aluminum A or B length riser for extreme durability and accuracy.

Aluminum riser for extreme accuracy with every shot

Utilizes the famous Take Down system for easy transportation

Adjustable center shot side plate allows for perfect arrow tunings

Includes bushings for stabilizer and quiver accessories

### Features

- A-Riser with #1 Limbs = 56" AMO
- A-Riser with #2 Limbs = 58" AMO
- A-Riser with #3 Limbs = 60" AMO
- B-Riser with #1 Limbs = 60" AMO
- B-Riser with #2 Limbs = 62" AMO
- B-Riser with #3 Limbs = 64" AMO
- Satin Finish
- Fred Bear Camo and Moss Green

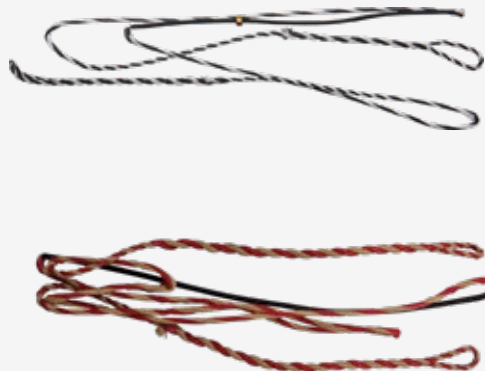

# Take Down Limbs

Years ahead of their time, Fred Bear's Take Down Limbs brought the industry a new technology and superior performance. Today, these Take Down Limbs are constructed of layered hard rock maple and black fiberglass, and handcrafted tips that are reinforced with black and white fiberglass to accommodate modern strings. For 2022, Take Down Limbs are available in three lengths: #1, #2, and #3 limbs. The #1 limbs will make a 56" bow on an A-Riser and a 60" bow with a B-Riser. The #2 limbs will make a 58" bow on an A-Riser and a 62" bow with a B-Riser. And the #3 limbs will make a 60" bow on an A-Riser and a 64" bow with a B-Riser.

# Kodiak

Ask around about Bear bows, and you'll hear tales of the legendary 59 Kodiak. Throughout the years, Bear has been asked to "bring it back." Out of respect, we were convinced the 59 Kodiak could never be duplicated. But, like Mr. Bear, we believe in giving people what they want. The timeless design and craftsmanship will forever make the Kodiak one of the most desirable recurves in the industry.

# Traditional Broadheads

In 1956, Fred Bear introduced the Razorhead to the bowhunting community. It quickly became one of the most respected and widely used broadheads among bowhunters. For 2022, Bear Archery has reintroduced the iconic Razorhead broadhead with a twist of modern technology. The all-new Razorhead VWS (Variable Weight System) features an innovative insert system that is designed to allow bowhunters the ability to customize the weight of their broadhead from 150gr, 175gr, 200gr, and 250gr. The Razorhead VWS Single Bevel is constructed from high-grade stainless steel, engineered to provide optimum penetration through impact, leading to a bone splitting effect and enhanced tissue damage throughout the animal. The broadheads by themselves weigh 150gr and can be used as a glue on point for wooden or swedged arrow shafts. In addition, the Razorhead will come with three different sets of inserts, along with three field points that match the weight of the broadhead. In conjunction with the 150gr heads or field points, you can add one of the three included inserts: magnesium insert will make a 175gr head, aluminum insert will make a 200gr head, and a stainless-steel insert will make a 250gr head. All inserts are designed to fit both aluminum and carbon arrow shafts.

## THE BOWHUNTERS OF TOMORROW

Bear Archery is proud to be recognized as the industry leader in youth and recreational archery equipment. Each of our youth and recreational bows are carefully designed to fit the needs of young archers everywhere. With the introduction of our new lineup, we are proud to continue to inspire and encourage kids everywhere to get involved with the sport. The 2022 line of bows brings more adjustability and value than ever before. It's never too early to share the passion of shooting a Bear with the next generation of archers.

# BRAVE

The Brave® is the perfect introductory bow for young children following the example of Mom and Dad. With a 26" axle-to-axle and 15 to 25 lb. peak draw weight, the Brave is suggested for ages eight and older. The Brave has a draw length range of 13.5 to 19.5 inches and a brace height of 5.5". The let off is 65%. The Brave Youth Bow Set comes ready to shoot with two Safetyglass™ arrows, Whisker Biscuit arrow rest - the safest rest in the archery industry and a \$40 value, a 1-pin sight, arrow quiver, and armguard. The Brave is intended for right-handed use only. Choose from six different color options.
