WARNING

Improper installation or use of your shower tent may result in serious injury or death. Follow these installation instructions carefully to ensure proper installation on your vehicle and safe use of your shower tent.

Getting Started

This installation manual supports the current Tuff Stuff Shower tent. Remove Shower tent from box and place on a clean surface.

STEP 1

1. Use the shower tent L brackets to attach to your designed mounting points
2. Make sure that the shower tent is secure and does not move when mounted

STEP 2

1. Unzip the Shower tent cover. The cover is there to protect the equipments and should at all times while traveling be closed and secure.
2. When traveling make sure you check the zips are secure and if in rough weather use a zip-tie to hold them together.

STEP 3

1. Move cover securely out of the way by placing it on the top of the shower tent bracket.
2. The cover is attached to the bracket and will not be able to be removed

STEP 4

1. There will be 4 Straps that are holding the shower tent in place.
2. Two straps hold the shower material
3. Two straps hold the shower tent arms.

STEP 5

1. First remove the shower tent material straps
2. Both right and left side

STEP 6

1. Unroll the tent material away from the vehicle

STEP 7

1. Stretch the material as far out as it will go for there are tension bars on the bottom that will help hold the material in shape

STEP 8

1. Undo the two straps that hold the side arms in place

STEP 9

1. Both shower tent support arms will want to swing out make sure you guide them out to each side.

STEP 10

1. Lock each arm bracket into place

STEP 11

1. The Shower tent is all ready to go all you have to do is secure the Loops to the ground if there is a big wind.

CLOSING THE TENT

To close the tent just revere the procedure and there is 1 trick.
Trick 1: make sure that when you roll the shower tent back up you palce the material underneath the arms so that the cover will close easily

Storage and Handling

- 1) Open the Shower tent fully and brush and vacuum any dirt.
- 2) Clean the fabric as needed using a mild detergent, warm water, and a soft to medium brush. Rinse fabric of all detergent prior to drying.
- 3) Dry Shower tent in the sun with shower tent open. The shower tent must be completely dry before storage, or mildew and mold may occur. This is especially necessary after camping in rain or wet conditions.
- 4) Using a small brush you can remove dirt from the zipper. You can use bees wax or a silicon spray to keep the zipper lubricated
- 5) Before you leave always check the nuts and bolts attaching your shower tent to the rack. Make sure they are tight and secure. Check the cover is sipped and strapped.
