ADDITIONAL SUPPLIES: 3 YDS 1/4" diameter cording (cut 28" length for each bag), Light fusible interfacing (optional)

NOTE: Instructions and diagrams shown for Bag 1, repeat for Bags 2 and 3.

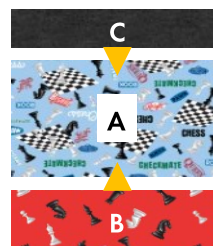

BAG ASSEMBLY: Refer to BAG DIAGRAMS

BAG DIAGRAMS

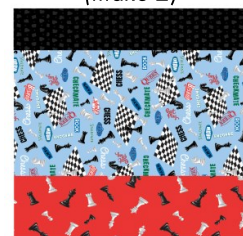

EXTERIOR:

1. Sew (1) A EXTERIOR MIDDLE rectangle, (1) B EXTERIOR BOTTOM rectangle, and (1) C EXTERIOR TOP rectangle together as shown to create BAG EXTERIOR. Square to 11-1/2", make (2). Add fusible interfacing to both BAG EXTERIORS if desired.
2. Place (2) BAG EXTERIORS right sides together (matching colors and seams) and sew around left side, bottom and right side leaving top open.

2.

BAG ASSEMBLY (continued): Refer to BAG DIAGRAMS

LINING:

3. Place (2) **A LINING** 11-1/2" squares right sides together and sew along left side, bottom (leaving a 4" opening), and right side leaving top open.
4. Turn right side out.

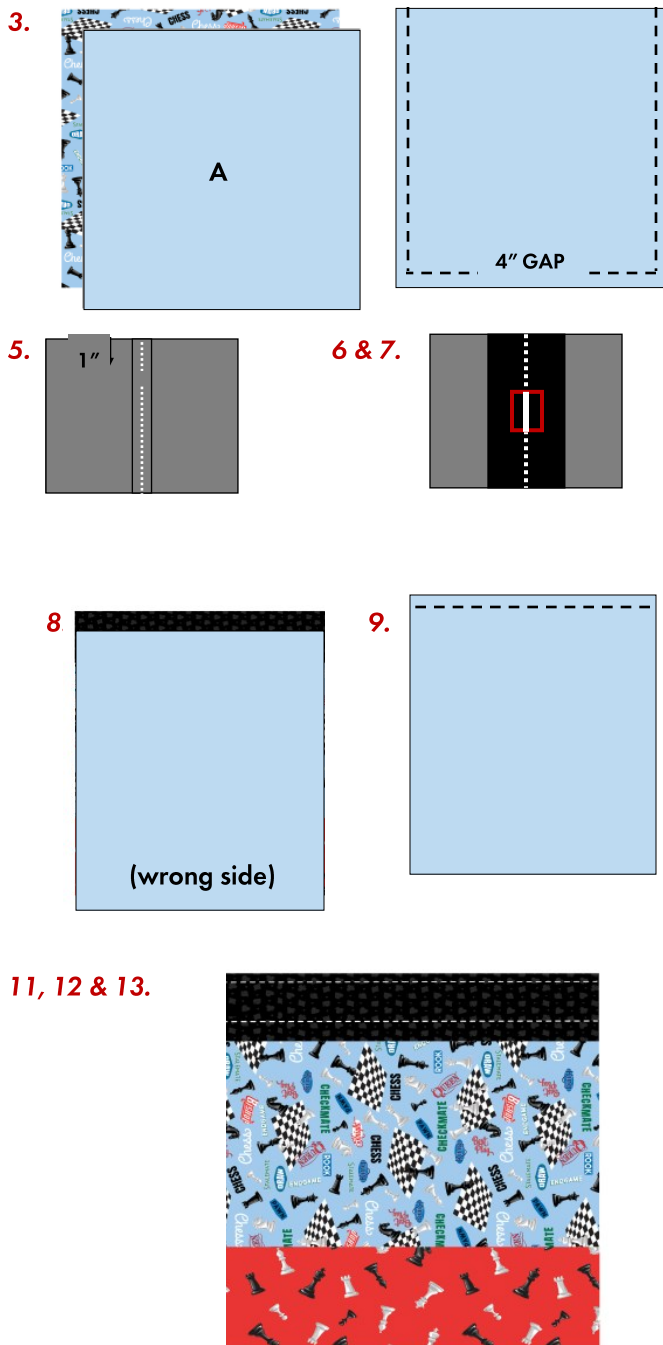

CORD OPENING:

5. Measure down 1" from top of **BAG EXTERIOR** and mark along one side seam. Using a seam ripper, open 1/2" gap in the side seam..
6. Sew across the side seam just above and below the gap.
7. Edge stitch along the length of the 1/2" gap to tack down seam allowance.

BAG ASSEMBLY:

8. Place the **BAG EXTERIOR** inside the **LINING** with right sides together. Align the side seams and pin or clip the top raw edges.
9. Sew along the top edge, then turn the bag right side out using the gap in the bottom of the lining.
10. Sew the lining closed with an edgestitch or hand sew with a slip stitch.
11. Tuck the lining inside the exterior and press. Press the exterior and the top opening of the bag, then topstitch along the top opening of the bag with an 1/8" seam allowance.
12. Find the side seam with the opening. Make a mark about 1/8" to 1/4" just below the opening (approximately 1-1/4" from the top of the bag). Continue to mark around the bag. Sew along this line to form the cord casing.
13. Insert the cord into the casing using a bodkin or safety pin and pull through. Match cord ends and tie together.
