### About Us

Tackle Tuff is committed to the outdoor lifestyle and to off-road adventures in particular. Our idea of a fun day usually involves getting into the mud, sand, rocks or whatever we feel like. We also believe in respecting nature and protecting our natural resources. We believe access to nature is a human right, so we're dedicated to helping our customers access all that nature offers by providing rugged and stylish products that

## Product Guide

# TACKLE TUFF OFF-ROAD RECOVERY

## SNATCH BLOCK

A snatch block is a heavy-duty pulley inside a metal case. Snatch blocks are used to increase the pulling capacity of winches. Tackle Tuff Snatch Blocks can commonly produce a 100% increase in pulling or lifting capacity.

P/N	Description	W.L.L.	Break Wgt.
TT-1001	Premium Blk	15 Tons	30 Tons
TT-1002	Premium Gry	15 Tons	30 Tons
TT-1006	Deluxe Mega	5 Tons	10 Tons
TT-1007	Deluxe Heavy	4 Tons	8 Tons
TT-1008	Deluxe Med.	2 Tons	4 Tons

## SHACKLES

Shackles are used extensively when you are winching. You will use them to attach your winch to tree saver straps, snatch blocks, line extenders, etc. These are essential items for any recovery operation. (3/4")
