The LWC 1000 and LWC 1000HR.

These two models provide healthcare for patients in medical and residential settings.

The low profile, heavy duty large platform, and versatility were designed to accommodate most wheelchair and electric mobility devices. Both models come standard with a 1000lb x 0.2lb capacity and readability allowing for accurate weighing of the patients. The LWC 1000HR comes standard with handrails to accommodate patients who require more support for embarking or disembarking the platform. A REMO indicator factory set for these models specifications provide a clear reading and simple user interface.

Support Rail

Offers stability and a location to mount the indicator. This rail also folds down for storage.

Caster wheels

Platter size
39.4" x 37.8"

Handrails

Offers support for patients that may need extra stability. Also provides a location to mount the indicator.

Caster wheels

Platter size
39.4" x 37"

The LWC-P 800 is a New Product Released by LW Measurements in Spring of 2022.

This scale was designed to provide a portable and simple alternative to the standard wheelchair scale design. Light weight and durable presents an easy way to bring this scale to your patients if they have trouble coming to you. The bases and indicator come standard with rechargeable lithium-ion batteries and are Bluetooth enabled. Like the LWC 1000 and 1000HR models this portable version also comes standard with a REMO indicator that is specifically programmed for this scale model. No wires + no mess = no stress when it comes to stowing or deploying the scale.

Compact and Lightweight

Provides more convenient transportation and utilization of this scale where the other full size wheelchair scales may be unmanageable.

Overall Dimensions

54" x 6.25"

37.5" x 5.75"

Foldable Ramps and Stainless-Steel Handles.

Make this model even easier to transport and deploy in areas with more restrictions and lack of space.

Manufactured with Strong and Durable Materials

Every LWC is made to withstand daily use with reliable materials. From lightweight, durable Aluminum and steel. The LWC 1000HR even has a black iodized coating to help prevent wear and tear on your device. All LWC also comes standard with the Remo Indicator that is factory set to the scales specifications, which includes a mounting bracket and hardware for installation.

Warranty

For Customers within the lower 48 states of the continental United States the products are under warranty against factory defects for a period of two (2) years from the date of shipment.

LW Measurements will pay for freight both ways within the first 30 days of purchase if technical support is required. After 30 days the customer is responsible for shipping the product back to us in the event technical support is needed. Once the product is received, the technical support team will inspect and as necessary repair or replace the scale. LW Measurements will ship the product back to the customer at our expense.

Any new scales returned for warranty must be properly packaged in the original box. If they are not properly packed an in the original box, the customer pays for shipping cost. If we determine there is a factory defect, we will pay for the shipping back. If we determine that it is not a factory defect, the customer will pay shipping.

For Customers outside the lower 48 States, including Mexico, Canada, Puerto Rico, Hawaii, Alaska and all other countries, customers must pay for shipping.

Our warranty does not cover misuse or neglect including but not limited to battery or water damage, overloading, and chewed or cut wires. If the product is found to have been misused or damaged by the customer, LW measurements is not responsible for the cost of return.

For warranty claims please call your customer service representative.
