LABORATORY BALANCES

- **User Friendly Interface**
- **Easy in-lab calibration**
- **RS232 Interface for data output**
- **Multiple program options:**
 - **Standard weighing**
 - **Count/Pieces Mode**
 - **Percent deviation**

Accuris laboratory balances provide accuracy and precision for researchers that demand results. Three series are available to meet a variety of requirements from basic weighing to advanced analytical measurement. The analytical models are available with internal calibration (optional) and readability down to 0.0001g.

All Accuris balances use the latest in weighing technology. The *Compact* and *Precision* series use a compact ceramic capacitance sensor to deliver accurate readings with high repeatability.

The *Analytical series* of balances incorporate a highly precise *electromagnetic sensor*, to deliver unmatched accuracy down to 0.0001g. In addition, all Accuris balances feature adjustable levelling feet and levelling bubble indicator.
