TEA CONTROL 0.8L + POT WARMER

The award winning **finum**® TEA CONTROL™ 0.8L with brew-control insert for whole-leaf tea.

Presented with the prestigious red dot Design Award and the GOOD DESIGN™ award in 2010, these brewers are equipped with the patented brew-control mechanism – a simple turn of the lid corners the tea leaves and slows the brewing process. With the TEA CONTROL™, your loose-leaf tea can remain in the heat-resistant glass without compromising the flavor by becoming bitter. It also allows for multiple brews. Enjoy delicious tea from the first to the last cup!

The Pot Warmer is a most practical stainless-steel accessory that helps tea keep its temperature right where you want it. Designed with elegance and style, it is a perfect match to all Tea Control non-electric tea makers. It is outstandingly stable and stands firmly on any flat surface. Tea is now more enjoyable and stays warm for longer!
