ATIKLCYGNT02

CONTENIDO:

- Socket reforzado con entrada E26/27 y certificación UL
- Pasacable para nipple de refuerzo para soporte del socket
- Pasacable de refuerzo para soporte del canope

INCLUDE:

- Reinforced socket with E26/27 entry and UL certification
- Cable gland for reinforcement nipple for socket support
- Reinforcement cable gland for canopy support

INSTRUCCIONES DEL PRODUCTO:

Limpiar con un paño seco y no aplicar sustancias ya que podrían dañar el producto. Al ser el yute una fibra natural, es importante no exponer la lámpara directamente al sol o lluvia porque podría disminuir su tiempo natural de vida. Se recomienda ampliamente el uso de foco LED.

PRODUCT INSTRUCTIONS:

Clean with a dry cloth and do not apply substances as they could damage the product. Since jute is a natural fiber, it is important not to expose the lamp directly to the sun or rain because it could reduce its natural life time. The use of an LED bulb is highly recommended.
