

Title Bed 04

A modern timber platform bed with a beautifully crafted headboard and unique built in bench seat.

The Title Bed 04 is the hero piece of the Title range. A complex and process driven piece of furniture, the Title Bed 04 is an incredible display of the craftsmanship, the full expression of the Title beds— the platform base, the in-built bench and the cocoon-like, steam-bent headboard. The design and functionality of this bed highlights the inherent beauty and versatility of wood.

The initial concept for the Title collection was based around an exploration of interlocking joinery. The Title beds are a product range built on a system of legs and rails which work together to support a platform-style bed frame. The result is a family of four beds, ranging from simple to most complex, customisable to suit the lifestyle and preferences of the end user. With practicality in mind, each version of the bed is easily assembled and pulled apart to allow for easy shipping and moving of the bed.

Materials:

American
Oak

Walnut

White
Ash

Black

Tasmanian
Oak

Painted

Alternative timber species can be used upon request.
Painted colours are available to be colour matched.
