

Material Safety Data Sheet (MSDS)

Section 1 - Identification of the Substance/Mixture and Company

Product Name : Glue Aid
Use: For professional use only
The use of product Advance Speed curing solution for eyelash adhesive

Company Information: I AM Lash LTD.

Address: Cambrian Cost
Ynyslas
Borth
SY24 5JU
United Kingdom

Contact Number: +447706942723

Website: www.iamlashpro.com

Section 2 - Composition, Information of Ingredients

Ingredients	Cas Registry No.
EtOH	64-17-5
Poly Ethyl Silicate	11099-06-2
1,8-Cineole	40-82-6
4-t-Butyl Cyclohexyl Acetate	32210-23-4
Isopropyl Myristate	110-27-0

Section 3 - Hazards Identification

2.1 Classification of the substance or mixture

Acute oral toxicity : Category 4
Acute vapours toxicity : Category 4
Skin corrosion/irritation : Category 1
Serious eye damage/eye irritation : Category 1
Skin sensitisation : Category 1
Specific target organ toxicity - Single exposure : Category 3(Respiratory tract irritation)
Chronic aquatic toxicity : Category 2

2.2 Labelling (Globally Harmonized System)

Signal word:	Warning.
Hazard statements H302 :	Harmful if swallowed.
H314 :	Causes severe skin burns and eye damage.
H317 :	May cause an allergic skin reaction.
H318 :	Causes serious eye damage.
H332 :	Harmful if inhaled.
H335 :	May cause respiratory irritation.
H411 :	Toxic to aquatic life with long lasting effects.
Precautionary statements	
Prevention P260 :	Do not breathe dust/fume/gas/mist/vapours/spray.
P261 :	Avoid breathing dust/fume/gas/mist/vapours/spray.
P264 :	Wash.(hands/face)thoroughly after handling.
P270 :	Do not eat, drink or smoke when using this product.
P271 :	Use only outdoors or in a well-ventilated area.
P272 :	Contaminated work clothing should not be allowed out of the workplace.
P273 :	Avoid release to the environment.
P280:	Wear protective gloves/protective clothing/eye protection/face protection.
Response P310 :	Immediately call a POISON CENTRE or doctor/physician.
P312 :	Call a POISON CANTER or doctor/physician if you fee unwell.
P321 :	Specific treatment(see...on this label).
P330 :	Rinse mouth.
P363 :	Wash contaminated clothing before reuse.
P391 :	Collect spillage.
P301+P312 : IF SWALLOWED:	Call a POISON CENTRE or doctor/physician if you feel unwell.
P301+P330+P331 : IF SWALLOWED:	Rinse mouth. Do NOT induce vomiting.
P302+P352 : IF ON SKIN:	Wash with plenty of water/...
P303+P361+P353 :	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower.
P304+P340 : IF INHALED:	Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P305+P351+P338 : IF IN EYES:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P333+P313 : if skin irritation or rash occurs:	Get medical advice/attention.
P362+P364 :	Take off contaminated clothing and wash it before reuse.

Storage P405 :	Store locked up.
P403+P233 :	Store in a well-ventilated place. Keep container tightly closed.
Disposal P501 :	Dispose of contents/container to...(in accordance with local/regional/national/international regulation).
2.3 Other hazards	
Health - 0	
Fire - 0	
Reactivity - 0	

Section 4 - First Aid Measures

4.1 General advice Get emergency medical attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. When in contact with substances, Rinse immediately the skin and eyes with running water for 20 minutes or more.

4.2 In case of eye contact

Prevent the spread of contamination when minor parts in contact with skin. Get emergency medical attention. Wash contaminated clothes before using it again. If the hot material, Soak or Rinse the affected area with a large amount of cold water to get rid of the heat. When in contact with substances, Rinse immediately the skin and eyes with running water for 20 minutes or more. Call a POISON CENTRE or doctor/physician if you feel unwell. Remove contaminated clothing and shoes and isolate contaminated areas. IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water. shower. If skin irritation or rash occurs: Get medical advice/attention.

4.3 In case of skin contact

If it exposed to dust or fumes remove the excess with a clean air, and if you have a cough or other symptoms, please seek medical attention. Settle down and warm.

If inhaled or eaten substances: Use appropriate respiratory medical equipment instead of mouth to mouth resuscitation. Move to fresh air.

Immediately call a POISON CENTRE or doctor/physician. If breathing is difficult, give oxygen. If you are not breathing, give artificial respiration.

4.4 If inhaled

Get emergency medical attention.

If inhaled or eaten substances: Use appropriate respiratory medical equipment instead of mouth to mouth resuscitation. IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. IF SWALLOWED: rinse mouth. Do NOT induce vomiting. Rinse mouth.

4.5 If swallowed

Medical personnel, and to ensure that take protection measures is recognised for its substance.

Section 5 - Fire Fighting Measures

5.1 Extinguishing media

When extinguishing material related this, use alcohol foam, CO₂ or water spray. When extinguishment by smothering, use dry sand or dust.

5.2 Special hazards arising from the substance of mixture

Containers may explode when heated. Some can be burned but not igniting easily. During burning, stimulated poisonous gas can be made by thermal decomposition or combustion. It can cause a fire, irritating and toxic gases. It can start a fire irritating, corrosive and toxic gases.

5.3 Advice for firefighters

Please extinguish by keeping a safe distance outside the area. Please be aware that some shipping in high temperature. The ditch can be made for the disposal of extinguishing and should not be confined material is scattered. If safe to do so, remove container from the path of fire. After extinguishing the fire, the tank should be evolved with large amount of water to cool the containers. Should step down immediately when safety valve make a boom sound or discolouration on the tank fire. Please step back from wrapped in flames tank Rescuer should wear appropriate protective equipment. The maximum distance from the tank or fire extinguishing please use an unattended fire extinguishing equipment. For large fire use extinguishing equipment unattended. If it can not back out. Please be aware that transportation is melted.

Section 6 - Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Avoid inhalation of (Dust, fumes, gas, vapour, mist, spray). Do not touch spillage or walk Remove all sources of ignition. Prevent dust formation. Wipe spills immediately, Please follow the precautions Reserve protest. Follow Stop leak if without risk. Do not touch damaged containers or spillage without wearing proper protection. Stop the spread covered with a plastic sheet. Please note that materials and conditions to avoid.

6.2 Environmental precautions Prevent entry into waterways, sewers, basements and confined spaces.

Avoid release to the environment.

6.3 Methods and materials for containment and cleaning up

Please prevent scatter wetted with water after remove dust properties of air. Collect spillage.

Make a ditch away liquid spillage when large leaks. Please prevent the spread covered a plastic sheet and Keep dry when powder leaks.

Absorb spilled by inert material and Put a chemical waste container. Please absorbed by non-combustible material and Place in containers when small leaks. Please absorb liquids and Rinse the contaminated area with detergent and water. Put spillage in a clean and dry container with a clean shovel, closed loosely, move containers from spill area.

Section 7 - Handling And Storage

7.1 Precautions for safe handling

Avoid inhalation of (Dust, fumes, gas, vapour, mist, spray). Please note that materials and conditions to avoid. Do not breathe vapours from the heated material.

Please carefully open the cap before opening. Please note that a high temperature.

Please work with engineering controls and personal protective equipment. Use only outdoors or in a well-ventilated area. Since it may retain product residues that even after the container is emptied, Follow all MSDS / label precautions.

When using this product, Do not eat, drink or smoke. Contaminated work clothing should not be allowed out of the workplace. Please stop the long-term or continuous skin contact.

Without proper ventilation. Do not enter the storage area. Wash after handling the treated area thoroughly. Please use care in handling / storage. Please use only in a well ventilated area.

7.2 Conditions for safe storage, including any incompatibilities

Empty drums are completely drained, Return to the drum regulator adequately protect immediately or Place properly.

Store in a well-ventilated place. Keep container tightly closed. Keep away from food and beverages.

Store in a storage location in lock.

Section 8 - Exposure Controls, Personal Protection

8.1 Exposure controls

Internal regulations:	No data available
ACGIH regulations:	No data available
Biological exposure standards:	No data available

8.2 Proper engineering management:

No data available

8.3 Personal protective equipment

Respiratory protection:	No data available
Eye protection:	Please use chemical defence glasses and face protection.
Hand protection:	Wear appropriate chemical resistant gloves.
Skin and body protection:	Wear the appropriate chemical resistant clothing.

Section 9 - Physical And Chemical Properties

9.1 Information on basic physical and chemical properties

Form	Liquid
Color	Pale yellow to Yellow
Odor	No data available
Odor Threshold	No data available
pH	No data available
Melting point	No data available
Boiling point	No data available
Flash point	88°C
Evaporation rate	No data available
Flammability (solid, gas)	No data available
Explosion limit (lower / upper)	No data available

Vapor pressure	No data available
Solubility	Soluble in alcohol.
Relative vapour density	No data available
Specific gravity (20/20°C) (Water=1)	0.887 ± 0.01
Partition coefficient :	
n-octanol/water	No data available
Autoignition temperature	No data available
Decomposition temperature	No data available
Viscosity	No data available
Molecular weight	No data available

9.2 Other information

Refractive index (20°C) 1.452 ± 0.005

Section 10 - Stability And Reactivity

10.1 Chemical stability / Possibility of hazardous reactions

Containers may explode when heated. Some can be burned but not igniting easily. It can cause a fire, irritating and toxic gases. Can cause burns to skin and eyes on contact. Inhalation of substances that may be harmful. That inhalation of asbestos may cause damage to the lungs. Some liquid may cause steam to cause dizziness, suffocation.

10.2 Conditions to avoid

Heat, sparks, flames, such as ignition sources.

10.3 Incompatible materials

Combustible material, reducing material.

10.4 Hazardous decomposition products

During burning, stimulated poisonous gas can be made by thermal decomposition or combustion. Irritating, toxic gases. Corrosive / toxic fumes.

Section 11 - Toxicological Information

11.1 Information on the likely routes of exposure

No data is available on the product itself.

11.2 Information on toxicological effects

Acute toxicity

Acute toxicity

Acute oral toxicity

Acute dermal toxicity

Acute inhalation toxicity

Skin corrosion/irritation

Serious eye damage/eye irritation Respiratory sensitization

Skin sensitization Carcinogenicity

Germ cell mutagenicity Reproductive toxicity

it causes skin irritation.

It causes eye irritation.

No data is available on the product itself

No data is available on the product itself. No data is available on the product itself. No data is available on the product itself. No data is available on the product itself.

Target Organ Systemic Toxicant – Single exposure

No data is available on the product itself.

Target Organ Systemic Toxicant -Repeated exposure

No data is available on the product itself.

Aspiration hazard.

No data is available on the product itself.

Section 12 - Ecological Information

No data available

Section 13 - Disposal Considerations

13.1 Waste treatment methods

Product The product should not be allowed to enter drains, water courses or the soil.

Do not contaminate ponds, waterways or ditches with chemical or used container.

Send to a licensed waste management company.

Section 14 - Transport Consideration

14.1 UN number	3082
14.2 Proper shipping name	Environmentally hazardous substance, liquid, N.O.S.
14.3 Transport hazard class	9
14.4 Packing group	III
14.5 Marine pollutant	Yes
14.6 Special precautions	
EmS Fire	F-A
EmS Spillage	S-F

Section 15 - Regulatory Information

No data available

Section 16 - Other Information

None. This MSDS is intended to provide a brief summary of our knowledge and guidance

regarding the use of this material. It is not meant to be an all -inclusive document on worldwide hazard communication regulations.

Operations must comply with applicable local and national MSDS/Hazard Communication Regulations.

This information is offered in good faith. Each user of this material needs to evaluate the conditions of use and design the appropriate protective mechanisms to prevent employee exposures, property damage or release to the environment.

This information is furnished without warranty, expressed except that it is accurate to the best knowledge of I AM Lash LTD.

The data on this sheet rotates only to the specific material designated hereon. I AM Lash LTD. assumes no legal responsibility or use or reliance upon this data.
