FLAME FAILURE

CAST IRON TRIVETS

MADE IN ITALY

WOK BURNER

Key features	Benefits
Flame failure	A flame failure device ensures gas cannot flow from the cooktop when no flame is present. No flame = no gas flow = a safer home.
Cast iron trivets	Cast iron trivets are heavier and more durable than typical enamel coated trivets. This results in a more stable cooking surface and less chance of damage to the cooktop.
Wok burner	Wok burners provide high heat that is needed for effective wok cooking. Not only is it suitable for Asian cuisines it is also a powerful gas burner perfect for accelerating the cooking process.
