Norwin Executive Desk

I was able to organize some of Bryce's gaming equipment with the Norwin Executive Desk by @mopioinc! I always tell Bryce his rainbow equipment is cramping my neutral vibe

I am so very pleased with this coffee table. It looks great in our home and I love the nice walnut style. It was so easy to assemble and it's such good quality. The doors on both sides slide which the little kid in me was super entertained by. Highly recommend this piece!

Haylee Coffee Table

Brooklyn Corner TV Stand

Parts were labeled properly and the instructions were fairly clear. It took me about 2 hours to assemble on my own, which was a bit longer than I expected, but nothing about the assembly was particularly hard.

The colour of the oak laminate was in line with the pictures and the sizing was as described. All in all, it was value for money and it uplifted our living room with its waveform panel design and gave it the mid century modern touch I wanted.

# Before you start...

Ensure you have received all cartons and familiarize yourself with the workload. Make sure there are enough helping hands to assist you, and that you have allocated the time required to assemble your new product.

Make sure you have cleared enough space in your home for the assembly. We recommend protecting your floor with a mat or cardboard to avoid scratches during the assembly process.

Read instructions carefully and check no parts are missing.

Lay out all hardware on a soft surface so you can easily identify them.

Carefully identify all components in order to differentiate which pieces are left and right.

Install your new product carefully following the instructions. Don't skip ahead!

**DO NOT** over tighten screws or use a drill. It will damage the product.

If you need further assistance with assembling your Mopio product, please chat with us at [www.mopio.com#chat](https://www.mopio.com#chat).
