

SWPP17 Series Instructions

RECHARGING

1. The rechargeable batteries are already installed. Please do not attempt to open the unit, as this will void the warranty.
2. We recommend charging the Perfume Protector before it is used. Simply plug the charging cord into the bottom of the unit and into a standard outlet. The red light on the bottom of the unit will illuminate while the charging cord is plugged in. Note that the red light does not turn off or change color when fully charged. Simply charge for 8 hours then unplug it from the charging cord. **IMPORTANT: do not charge for more than 8 hours at a time.** Overcharging can damage the unit and void the warranty. When used infrequently the unit will need to be recharged for 8 hours every 60 days. If the flashlight is not as bright or if the electrical current becomes noticeably weaker, the unit will need to be recharged.

TEST FIRING THE STUN GUN

Warning: Do not test fire the unit for more than 1 second, as this will damage the unit and void the warranty.

1. Remove the safety cap.
2. Using your thumb, press down on the red (top) button, only for 1 second. You will see and hear an electrical arc on the top of the unit.

USING THE STUN GUN IN SELF DEFENSE

1. With the safety cap removed touch your assailant's body with the top of the stun gun and press the stun activation button (the red, top button).
2. Touching anywhere on the assailant's body will have an effect. However, the maximum effect is achieved in the areas shown to the right:
3. When touching the assailant's body, you will not see or hear the electrical charge as you can when the unit is test fired. You can hold the trigger down for more than 1 second, as this will not damage the unit as it will when being test fired.
4. You do not have to be concerned about the effects of the charge being transferred to you. Even if the assailant touches you while being stunned, you will not feel the effects of the charge.

EFFECTS OF THE UNIT ON AN ASSAILANT

1. Touching an assailant for less than 1 second will cause minor muscle contractions and have a repelling effect.
2. Touching an assailant for 1 to 2 seconds will cause muscle spasms and a dazed mental state.
3. Touching an assailant for 3 to 5 seconds will cause loss of balance and muscle control, total mental confusion, and disorientation. All effects to the assailant are temporary; the stun gun can cause no permanent harm. (NOTE: The device should not be used for longer than 5 seconds)

USING THE FLASHLIGHT

With the safety cap removed press and hold the green (button) bottom to activate the LED light.

WARRANTY

Cutting Edge Products, Inc. extends a lifetime warranty to the **SWPP17** for the product against defects in materials or workmanship, with the following exceptions:

1. The warranty does not cover damage resulting from accident, misuse or abuse, lack of reasonable care, moisture, the affixing of any attachment not provided with the product, loss of parts, or recharging the unit in any manner not in accordance with the included instructions.
2. The warranty will be voided if the unit has been opened or tampered with in any way (unless by an authorized dealer) or if any unauthorized replacement parts have been used.

NOTICE

Purchaser must check and abide by all local laws governing the possession and use of stun guns. In addition, the stun gun must only be used in a lawful manner for self-defense. NOTE: Not to be used on children, persons with heart disease, or any vital part of the human body. Not to be stored or used in environments where it is damp or humid or where there are extreme hot or cold temperatures. Do not use on metal objects.
