

## JSK92 Series Instructions

### RECHARGING

1. The rechargeable batteries are already installed. Please do not attempt to open the unit, as this will void the warranty.
2. We recommend fully charging before use. Insert the micro USB end (the smaller plug) of the included charging cord into the Charging Port located on the side of the unit and the USB end into your USB computer port or your block charger (not included) and plug the block charger into a standard outlet.
3. The Charging Light will illuminate and blink red while charging and turn solid green when fully charged. The recommended charging time is 1.5 hours. **IMPORTANT: Do not charge for more than 3 hours at a time.** Overcharging can damage the unit and will void the warranty. Under normal use the unit will need to be recharged every 60 days. If the flashlight is not as bright or if the electrical current from the stun gun becomes noticeably weaker, the unit will need to be recharged. To keep the batteries functioning properly the unit **MUST** be charged for a minimum of 1.5 hours every 100 days. Failure to do so could damage the unit and will void the warranty.

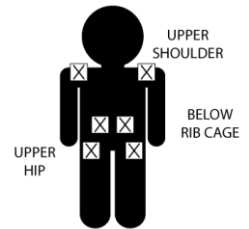

### TEST FIRING THE STUN GUN

**Warning:** Do not test fire the unit for more than 1 second, as this will damage the unit and void the warranty. Keep your fingers clear of the top of the unit when testing.

1. Press and hold the Mode Button for 1 second (the Blue Ready Light will turn on).
2. Press the Stun Activation button. You will see and hear an electrical arc on the top of the unit.
3. When finished testing, press, and hold the Mode Button for 3 seconds (the Blue Ready Light will turn off).

### USING THE STUN GUN IN SELF DEFENSE

1. Press and hold the Mode Button for 1 second (the Blue Ready Light will turn on).
2. Touch your assailant's body with the top of the unit and press and hold the Stun Activation Button.
3. Touching anywhere on the assailant's body will have an effect. However, the maximum effect is achieved in the areas shown to the right:
4. When touching the assailant's body, you will not see or hear the electrical charge as you can when the unit is test fired. You can hold the button down for more than 1 second, as this will not damage the unit as it will when being test fired.
5. You do not have to be concerned about the effects of the charge being transferred to you. Even if the assailant touches you while being stunned, you will not feel the effects of the charge.
6. When the stun gun is no longer needed to defend yourself, press and hold the Mode Button for 3 seconds and the Blue Ready Light will turn off.

### EFFECTS OF THE UNIT ON AN ASSAILANT

1. Touching an assailant for less than 1 second will cause minor muscle contractions and have a repelling effect.
2. Touching an assailant for 1 to 2 seconds will cause muscle spasms and a dazed mental state.
3. Touching an assailant for 3 to 5 seconds will cause loss of balance and muscle control, total mental confusion, and disorientation. All effects to the assailant are temporary; the stun gun can cause no permanent harm. (NOTE: The device should not be used for longer than 5 seconds)

### USING THE LED FLASHLIGHT

1. Press and hold the Mode Button for 1 second (the Blue Ready Light will turn on).
2. Fast press the Mode Button to turn on the LED Flashlight. Press it again to turn the light off. Note: one unique feature of this model is that you can activate the stun gun without turning off the light. To do so, simply press the Stun Activation Button even while the flashlight is on.
3. Once finished using the LED Flashlight press and hold the Mode Button for 3 seconds and the Blue Ready Light will turn off.

### USING THE ALARM

1. Press and hold the Mode Button for 1 second and the Blue Ready Light will turn on.
2. Fast press the Mode Button TWICE to turn on the alarm. Press it again to turn it off. Note that the speaker for the alarm is located behind the clip on the back of the unit so this area should not be covered.
3. Once finished using the alarm press and hold the Mode Button for 3 seconds and the Blue Ready Light will turn off.

### WARRANTY

There is a lifetime warranty that covers defects in materials or workmanship, with the following exceptions:

- The warranty does not cover damage resulting from accident, misuse or abuse, lack of reasonable care, water damage or excessive moisture, the affixing of any attachment not provided with the product, loss of parts, or recharging the unit in any manner not in accordance with the included instructions.
- The warranty will be voided if the unit has been opened or tampered with in any way (unless by an authorized dealer) or if any unauthorized replacement parts have been used.
- The warranty does not cover corrosion in the battery compartment caused by long-term battery storage.
- The warranty does not cover the charging cord or any other accessories.
- Not following the charging instructions shown above voids the warranty.

### NOTICE

Purchaser must check and abide by all local laws governing the possession and use of stun guns. In addition, the stun gun must only be used in a lawful manner for self-defense. NOTE: Not to be used on children, persons with heart disease, or any vital part of the human body. Not to be stored or used in environments where it is damp or humid or where there are extremely hot or cold temperatures. Do not use on metal objects.

### CONDITIONS OF SALE

Purchase of this product is an agreement by the purchaser/user to hold all sellers and manufacturers harmless of all liabilities and damages. The purchaser also agrees to use the product only in a lawful manner. Consult your state and local laws.

### TO OBTAIN SERVICE

Contact the Authorized Dealer from whom you purchased this unit for a Return Merchandise Authorization. The return unit must be sent postage prepaid and proof of purchase is required. Damage or loss occurring during shipment is not covered by this warranty.
