INSTRUCTION

Main Components

Please check you have all the parts listed below
1 Table top Qty 1
**2** Leg Qty 2

3 Bracket Qty 4
4 Foot Qty 2
5 Tray Qty 1
6 2m Power cord Qty 1
7 Clamp Blocks Qty 2

Fixings, Fittings And Tools

Please check all the fittings listed below

Note: The quantities below are the correct amount to complete the assembly. In some case more fittings may be supplied than be required.
A M6*15mm Screw Qty 8
B M6*15mm Screw Qty 12
C Ø16.5mm Washer Qty 8
D M8*15mm Screw Qty 8

E Ø18.5mm Washer Qty 8
F M4 Allen key Qty 1
G M5 Allen key Qty 1

H M6*65mm Screw Qty 4
J 25mm Bolt Spacers Qty 8

Assembly Step

Step 1

Assemble brackets [3] to legs [2] using fixings (A).
A — M6*15mm Screw Qty 8

F — M4 Allen key Qty 1

Repeat for both legs!
Step 2

With help, place desk top [1] upside down onto a clean flat surface.

Ensure the surface is suitably protected to prevent any damage to top [1].

Assemble legs [2] to top [1] using fixings (B) and (C).

Assemble feet [4] to legs [2] using fixings (D) and (E).
Attention: protect the table top well
B — M6*15mm Screw Qty 8

C — Ø16.5mm Washer Qty 8
D — M8*15mm Screw Qty 8
E — Ø18.5mm Washer Qty 8
F — M4 Allen key Qty 1

G — M5 Allen key Qty 1

Step 3

Connect all the lines correctly

6

6
Step 4

Secure the tray 5 with screw **B** to the bottom of the table top

M4 Allen key Qty 1

H
M6*65mm Screw Qty 4
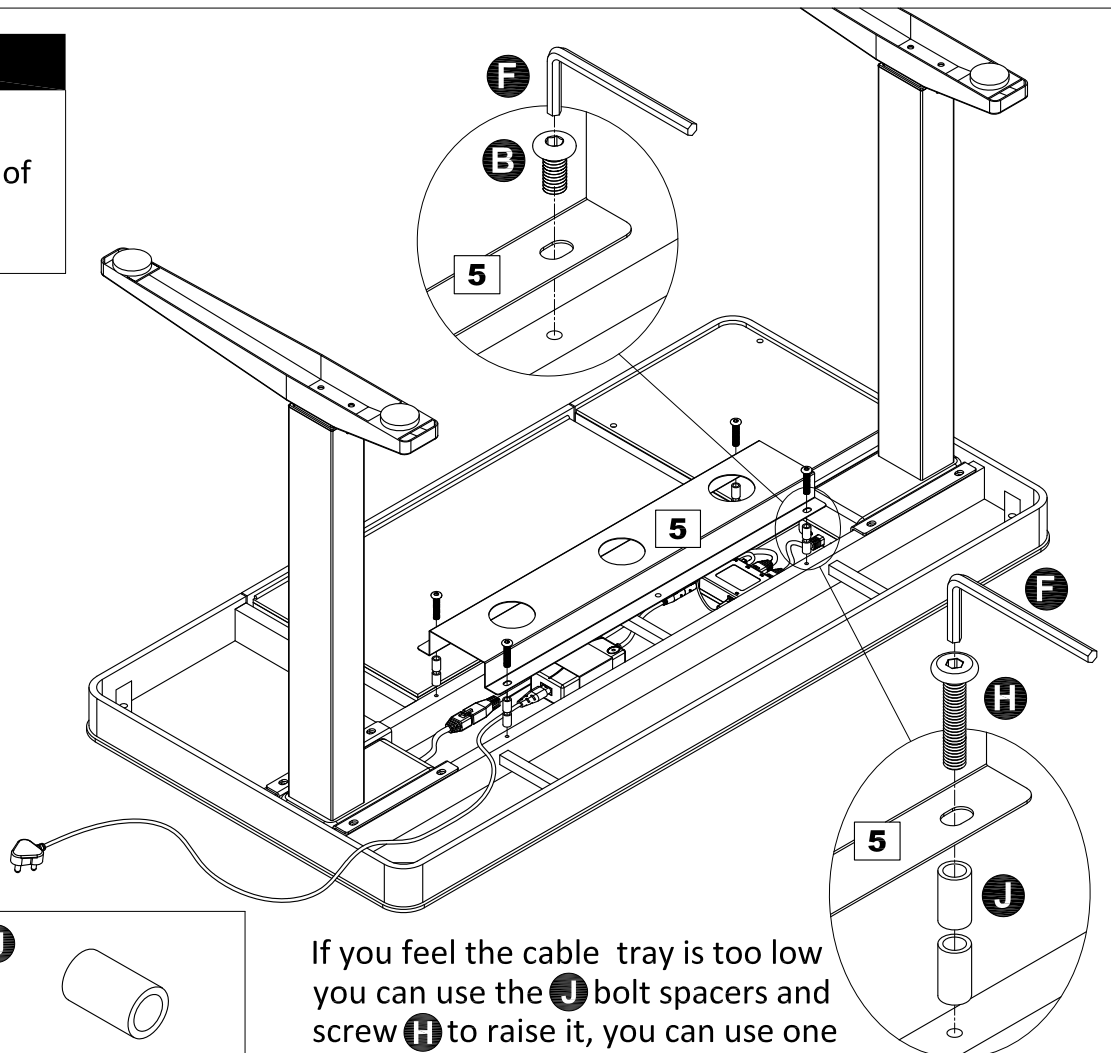

J
25mm Bolt Spacers Qty 8

If you feel the cable tray is too low you can use the **J** bolt spacers and screw **H** to raise it, you can use one or two of them.

Step 5

Tip：
After powering on, the display screen will display " L ". Hold down the "Ⓜ" key for 3 seconds to unlock it. For details, refer to the operation instructions.
You need to reset the device for the first time, as shown in the following figure.

At the same time, press "⬆" and "⬇" keys for 5 seconds to display " ▬▬▬ " and then release, the desktop will automatically enter the initialization mode, the table will automatically run, wait to stop, it means that the initialization is successful.

Another accessory

If you need a stand to attach to the table, use clamp blocks , place it in the space at the bottom of the table, and clamp it with the stand to make it stronger (note: the sponge side faces the toughened glass).

Technical specification

VOLTAGE	AC100V-240V /50-60HZ
RATED INPUT VOLTAGE	100V-240V
FREQUENCY	50-60HZ
RATED CURRENT	1.3A
NOMINAL VOITAGE	29V
OUTPUT CURRENT	2A
MAXIMUM POWER	58W
APPLICABLE AMBIENT TEMPERATURE	-12°C to 45°C
USB & TYPE-C CHARGER	18W for USB charger 45W for TYPE-C charger
WIRELESS CHARGER	10W for wireless charger

Features

a. wireless charger
b. height adjustable
c. USB model input

Wireless charging function

In the case of wireless charging compatible devices, please put the phone on the wireless charging indicator and check if the phone is successfully connected to the charging function. If not, move the mobile phone near the logo until the connection is successful.Wireless charging will only work with wireless charging compatible mobile devices.

Wireless charger is made to the QI standards and will charge any device that has QI standard charging.

wireless charging function

Those mobile phone models suitable for wireless charging are as follows:

Apple	iPhone 8 Series	iPhone SE2	
	iPhone X Series	iPhone SE3	
	iPhone 11 Series	iPhone 14 Series	
	iPhone 12 Series		
	iPhone 13 Series		
Samsung	Galaxy S6 Series	Galaxy S21 Series	Galaxy Note20 Series
	Galaxy S7 Series	Galaxy S22 Series	Galaxy Z Flip Series
	Galaxy S8 Series	Galaxy Note7 Series	Galaxy W Flip Series
	Galaxy S9 Series	Galaxy Note8 Series	
	Galaxy S10 Series	Galaxy Note9 Series	
	Galaxy S20 Series	Galaxy Note10 Series	
Huawei	Mate20 Series		
	Mate30 Series		
	Mate40 Series		
	P30 Pro		
	P40 Pro		
	Mate50 Series		
XiaoMi	Xiaomi 9 Series		
	Xiaomi 10 Series		
	Xiaomi 11 Series		
	Xiaomi 12 Series		
	MIX Series		

Operations

Key introduction

Display window | Function Memory key | Key1 | Key2

075 (M) (1) (2)

(↑) (↓) (3) (4)

Up Down Key3 Key4
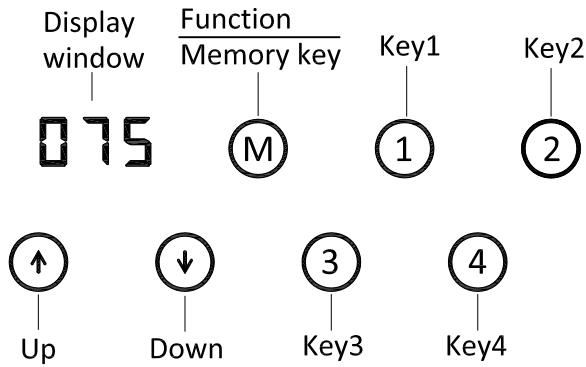

Display Windows

075 = Height

L = Locked

E ? ? = See Trouble Shooting

Lock and Unlock

- **Lock:** 15 seconds after no operation, display screen will automatically go out and lock. (You can also press the (M) key for 3 seconds to manually lock it)

- **Unlock:** long press (M) key for 3 seconds to unlock the device.

Desk Height Adjustment

UP:
To raise the desk height, press and hold the (↑) key until the desired height is reached.

Down:
To lower the desk height, press and hold the (↓) key until the desired height is reached.

Programme pre-set height

It is possible to store 3 pre-set height positions.

1, Use the (↑) (↓) keys to set the desired height . This is shown in the display window.

2, Press the (M) memory key. ' S- ' is shown in the display window.

3, Press one of the pre-set height number keys (1), (2), (3), (4). The number corresponding to the number key selected is shown in the display window, ' S-1 , S-2 , S-3 , S-4 '. The display window will return to showing the set height.

4, Repeat for each of the pre-set keys (1), (2), (3), (4).

5, Memory location query: Click " (1)/ (2)/ (3)/ (4) " button in a short time, and the display flashes to display the corresponding memory height.

6, Memory location run: Double click or long press " (1)/ (2)/ (3)/ (4) " button, the desktop will automatically run to the height of memory location, during running, any key can stop running.

Restore factory mode

Press and hold ⊕ and ⊕ at the same time until three transverse line --- are displayed, and the initialization mode is automatically entered, and the table will automatically run. After waiting to stop, it indicates that the initialization is successful.

When ┏5┏ or E ┃6 is displayed on the LCD, hold down ⊕ for 5 seconds. When --- is displayed on the LCD, release. At this point, the desktop will automatically run to the lowest point of the machine, and then run up to a fixed position and stop, the reset process is over.

Sitting reminder

Turn on the Sitting alert:
Hold down Ⓜ + ② button at the same time for 3 seconds and the screen blinks to display the time. Click Ⓜ to switch the duration (optional : 30 minutes / 45 minutes / 60 minutes). Switch to the desired time to start the timer.

End of time:
After the time of sitting reminder, the display will blink and display ┗h┏ for 1 minute. If there is no other operation, it will blink again 5 minutes later. If there is no other operation after repeating 3 times, it will automatically exit the sitting reminder program. If you press Ⓜ button during the blinking period, the display will display ₒFF, indicating that the sedentary reminding program is closed; if other keys are clicked, the display time indicates that the timing program is restarted.

Manually turn off sitting reminders:
Hold down the Ⓜ + ② button at the same time ,for 3 seconds, and the display screen will display the time. At this time, press the Ⓜ button and the display will be ₒFF, indicating that the sedentary reminder program is closed.

Gyroscope anti-collision protection

Anti-collision protection with built-in gyroscope on the desktop. If the desktop collides with obstacles or tilts during operation, the system will automatically stop operation and move back a short distance in the opposite direction to prevent damage to human body or objects. (Warm tip: Although the product has this function, please do not try it. Please make sure that the path of the table is free of obstacles!

Turn on or off the anti-collision：
Hold down the Ⓜ + ③ button for 10 seconds. When ACC is displayed, it indicates turn off, when displayed ACU indicates turn on.

Error code table

Display status	Explain	Process mode
E01	A The column is not connected	Press the up button or down button again. It still exists. Please check the motor line of pillar A
E02	B The column is not connected	Press the up button or down button again. It still exists. Please check the motor line of pillar B
