**You** can treat wood in this colour with wax for wood.

*C14 is for plates (tables and benches) only!*

# GUIDE | finish on ash & steel

## Terrigena Furniture

### ASH FINISH

This is the normal procedure where we plan and sand the wood to achieve a nice and smooth surface.

**Code: UP**

To achieve this effect we locate the naturally occurring cracks and make them more visible. This gives a rustic look with cracks in the surface.

**Code: SC**

To achieve this effect we brush off the layer of softer wood. This gives a great appearance of the wood being roughened by natural wear.

**Code: RL**

To achieve this effect our woodworkers add scratches and other fake signs of wear. This gives a patinated look as if the wood has been worn.

**Code: AP**

### STEEL FINISH

Industrial steel has a raw and matte appearance with shades of colors emerged during casting.

**Code: A**

Black painted steel has a graphical and simple look, that fits nicely in most homes.

**Code: B**

Brushed, stainless steel has an elegant appearance with a uniform finish created by hand. This finish costs +10 %.

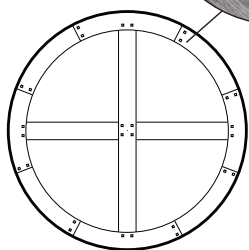

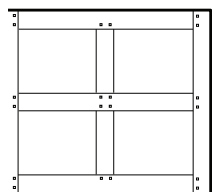

**Code: C**

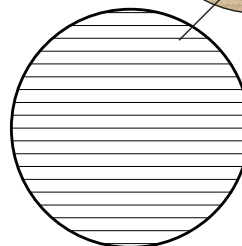

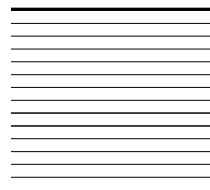

# GUIDE | fillings

## Terrigena Furniture

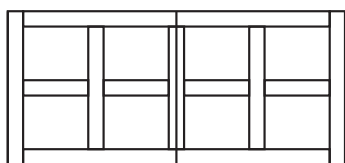

Tabletop **w/ fillings**

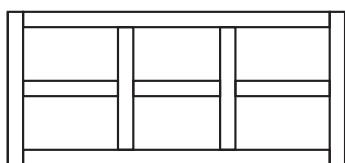

Tabletop **w/o fillings**

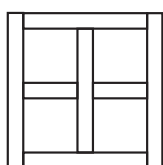

### Number of fillings
