How WhatsApp Messenger works WhatsApp Messenger is a cross-platform mobile messaging app that allows you to exchange messages without having to pay for SMS. WhatsApp Messenger is available for iPhone, BlackBerry, Android, Windows Phone and Nokia and yes, these phones can all message each other! Since WhatsApp uses the same internet data plan that you use for email and web browsing, there is no cost to message and stay in touch with friends. In addition to basic WhatsApp messages, users can create groups, send each other unlimited images, videos and audio media messages. WhatsApp uses your phone's Internet connection (4G/3G/2G/EDGE or Wi-Fi as available) to send and call friends and family. Switch from SMS to WhatsApp to send and receive messages, calls, photos, videos and voice messages. The first year is FREE! (WhatsApp can charge after that, the current price is \$0.99 USD/year). WHY USE WHATSAPP: NO ADDITIONAL FEES: WhatsApp uses your phone's Internet connection (4G/3G/2G/EDGE or Wi-Fi as available) to message and call friends and family, so you don't have to pay for every message or call. MULTIMEDIA: Send and receive photos, videos and voice messages. WHATSAPP CALLING: Call your friends and family using WhatsApp for free, even if they are in another country. WhatsApp calls use your phone's internet connection, not your cell phone's voice minutes. GROUP CHAT: Enjoy group chats with your contacts so you can easily stay in touch with friends or family. WHATSAPP WEB: You can also send and receive WhatsApp messages directly from your computer's browser. NO INTERNATIONAL CHARGES: There's no extra charge for sending WhatsApp messages internationally. Connect with friends around the world and avoid international SMS fees. DONT SAY USERNAMES AND PINS: Why bother to remember another username or PIN? WhatsApp works with your phone number, just like SMS, and easily integrates with your phone's existing address book. ALWAYS LOGGED IN: With WhatsApp, you're always logged, so you don't miss the message. There is no more confusion about whether you logged in or left the system. - FAST CONNECT WITH YOUR CONTACTS: Your address book is used to quickly and easily connect you to contacts who have WhatsApp, so there is no need to add hard-to-remember usernames. OFFLINE MESSAGES: Even if you miss your notifications or turn off your phone, WhatsApp will save your latest messages until the next time you use the app. Please note: Data fees may apply.
