

BRUSH GROMMETS

INTEGRAL

The Integral Grommet is designed to work with new raised-floor system installations prior to the installation of communication or power cabling. Great to block bypass airflow and maximize cooling system efficiency before and after cable installation.

Model	Type	Overall Size	Total Height	Usable Cable Area	Cut out Size	Material	Fire Rating
BG-1-281	INTEGRAL GROMMET	281 X 211MM	42MM	202 X 132MM	245 X 175MM	DURABLE ABS	NON-COMBUSTIBLE

SPLIT INTEGRAL

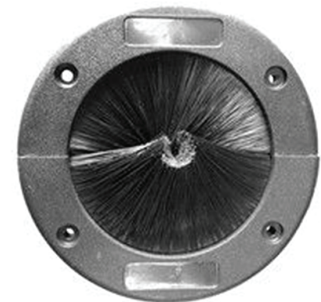

The Split Integral Grommets allow tiles to be moved without capturing cables. This grommet is designed to seal cable opening in new raised-floor systems prior or after the installation of communication or power cabling which works great in existing data halls.

Model	Type	Overall Size	Total Height	Usable Cable Area	Cut out Size	Material	Fire Rating
BG-SP-1-281	SPLIT INTEGRAL GROMMET	281 X 211MM	42MM	202 X 66MM	245 X 85MM	DURABLE ABS	NON-COMBUSTIBLE

SPLIT ROUND

The Split Round allows product installation or removal without disturbing cables. Designed to seal openings in new and existing raised floor cut outs to block bypass airflow and maximize cooling system efficiency.

Model	Type	Overall Size	Total Height	Usable Cable Area	Cut out Size	Material	Fire Rating
BG-SP-R-143	SPLIT ROUND GROMMET	143MM DIAMETER	50MM	95MM DIAMETER	105MM DIAMETER	DURABLE ABS	NON-COMBUSTIBLE
