Read & Keep These
Important Instructions

Negative Ion Cloud

Effectively neutralize pollutants surround you

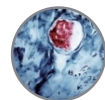

With over 20 million negative ions generated, Travo Pur can proactively capture, neutralize to eliminate dust, pollen, bacteria, etc. Travo Pur is specially designed for enclosed indoor spaces, such as on airplanes, trains, cars, offices, hospitals, schools, etc.

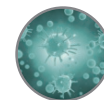

PM2.5

POLLEN

BACTERIA

VIRUS

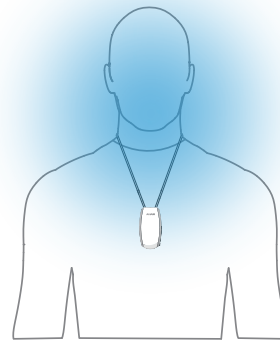

SMOKE

* Tested and proven by international independent test labs.

How To Use

Potential hazards during travel?

Smoking

Talking

Coughing

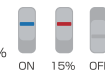

Sneezing

Indoor air quality can be much worse than outdoor. While most of us spend 80% of our time indoor, our health may be jeopardized by invisible pollutants.

Recommend to adjust the Ionic Strap to position the Travo Pur at about 10 inches below your nose for the best result.

- Push upwards to turn On LED lights up in Blue.
- When battery is below 15% LED lights up in Red.

Press to adjust the Ionic Strap length

- When in On position and charging, LED will alternate in Blue and Red colors until charging is complete then stays on Blue.

USB Charge for 3 hrs Purify for 144 hrs

- When in Off position and charging, LED will be in Red until charging is complete then turn Off.

Recommend to use the brush to gently clean the carbon fibers once a week to allow best ion release performance. Before cleaning, make sure the product is dry and turned off.

AVIAIR

Travo Pur Personal Air Purifier

Model :	AVP-858ES
Ions Generated :	20mil / cm ³
Battery :	500mAh
Input :	DC 5V 1A
Power :	0.05W
Charge By :	USB Cable
Charging Time :	3 Hours
Operating Time :	144 Hours
Product Dimensions :	82mm x 42mm x 26mm
Product Weight :	57g
Include :	Personal Air Purifier / USB Charging Cable / Cleaning Brush Storage Bag / Brand Intro Card / Instruction Manual

FAQ

- **Does this product have Radiation or Ozone?**
Our products have gone through extensive testing and validation to confirm Zero Radiation and Near Zero Ozone Output.
- **Can children wear Travo Pur? Any restrictions on age?**
Travo Pur is recommended for users above 8 years old.
- **Can this product be worn on to airplanes?**
Yes, our battery and product constructions have been designed and tested to be safe for in flight use.
- **Will I feel any electricity shock?**
The product operates with less than 5V. From accumulation of negative ions, at times you may feel minor electrostatic if the ionic strap is directly touching skin or through very thin collars. This is considered normal.
- **Is the Travo Pur waterproof?**
No, as any electronic product, there are electronic components inside. If product is exposed to high humidity or water, please turn off and let dry before reuse.
- **What are the two brushes on top of the unit?**
These are carbon fibers to generate and release negative ions.
- **Why are these carbon fibers exposed, not covered up?**
We designed this way specifically for the best result of ionic release with recessed placement to prevent damages.
- **Can I plug into any USB port to charge?**
Yes, this product is designed to be charged using power banks, power adaptors, and computers.

Caution

- Keep all parts away from small children to prevent swallowing hazard.
 - This product cannot serve or replace as a medical device for treatment.
 - The Ionic Strap is conductive, designed to create an ionic zone.
 - Do not replace this strap, or the purification efficiency may be decreased.
