- Do not touch this product with wet hands to prevent potential electrical shock.
- Do not use under blankets, bed sheets, or pillows.
- Do not store this product in high temperature or damp spaces.

Reminder

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory, or mental capabilities or lack of experience and knowledge if they have been given supervision or instructions concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
 - If you find abnormal sound, odor, or smoke, please turn off immediately and contact customer service.
 - Do not wrap the USB power cable around the product to avoid any damages.
 - If this product will not be used for a long time, turn off the power, clean, and store in a cool and dry environment.
 - After charging is complete, unplug the USB power cable.
- ★ *Please contact customer service for further questions.*

Potential hazards during travel?

Indoor air quality can be much worse than outdoor. While most of us spend 80% of our time indoor, our health may be jeopardized by invisible pollutants.

Smoking

Talking

Coughing

Sneezing

Recommend to adjust the strap to position the Travo Pur at about 10 inches below your nose for the best result.

Negative ions emitted can quickly cling on to the positive pollutants to neutralize and drop out of breathing zone, significantly reduce risk of respiratory infections and allergies.

Negative Ion Cloud

Effectively neutralizes pollutants surround you!

Up to 200 million** negative ions generated, Travo Pur can proactively capture, neutralize to eliminate dust, pollen, bacteria, and viruses etc.

Travo Pur is specially designed for enclosed indoor spaces, such as on airplanes, trains, cars, offices, hospitals, schools, etc.

PM2.5

POLLEN

BACTERIA

VIRUS

SMOKE

* Tested and proven by international independent test labs.

* Up to 200mil negative ions output depends on environmental conditions.

How To Use

- Press the button once to turn on to Normal setting with the breathing blue light displayed.
- Press again and hold for 2 seconds to shift to High setting with the blue light on constantly.
- To return to Normal setting, press and hold for 2 seconds again. In any of both settings, press once to turn off.
- When battery is below 15%, the indicator turns to flashing red light.
- Charging in Normal setting, the light is on constantly in red. When charging is completed, breathing blue light displayed.
- Charging in High setting, the light is on constantly in red. When charging is completed, the blue light on constantly.
- Charging in Off setting, the light is on constantly in red and off when charging is completed.

FAQ

- **Does this product have radiation or ozone?**

Our products have gone through extensive testing and validation to confirm zero radiation and near-zero ozone output.

- **Can children wear Travo Pur?**

Travo Pur is recommended for users above 8 years old.

- **Can this product be worn on to airplanes?**

Yes, our battery and product constructions have been designed and tested to be safe for in flight use.

- **Is the Travo Pur waterproof?**

No, as any electronic product, there are electronic components inside. If product is exposed to high humidity or water, please turn off and let dry before reuse.

- **What are the two brushes on top of the unit?**

These are carbon fibers to generate and release negative ions.

- **Can I touch the two carbon brushes?**

Do not play with the carbon brushes to avoid damages. In dry days or when wearing a sweater, you may feel a brief electrostatic sensation. This is considered normal.

- **Why are these carbon fibers not covered up?**

We designed this way specifically for the best result of ionic release with recessed placement to prevent damages.

- **Can I plug into any USB port to charge?**

Yes, this product is designed to be charged using power banks, computers, and regular 5V power chargers. Do NOT use quick chargers.
