Tools Used

Installation Procedure

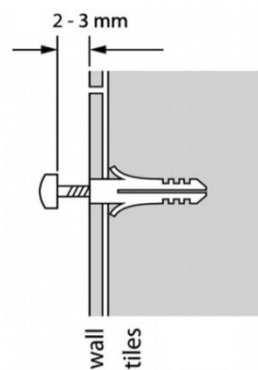

1. Turn off the electricity before beginning.

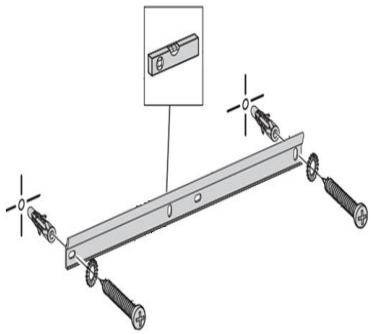

2. Mark the drill positions on the horizontal line, ensure the drill positions are horizontal by using a spirit level.

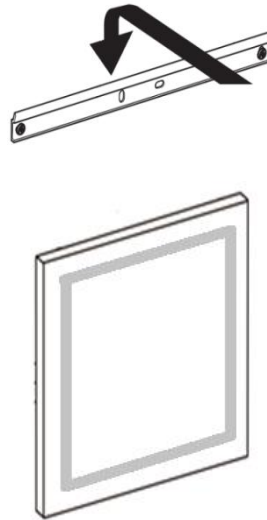

3. Wearing an eye protection, drill holes on the wall.

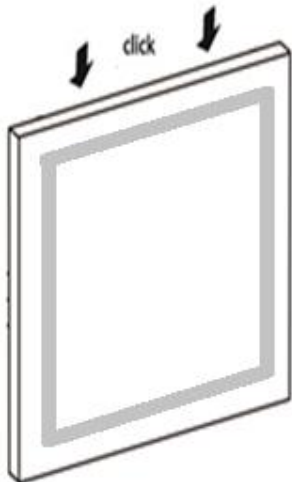

4. Insert wall plugs carefully.

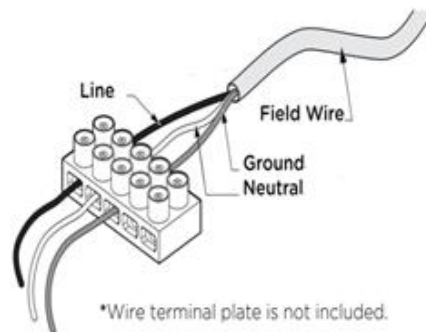

5. Fix the mounting bracket to the wall by screws.

6. Hanging mirrors onto the bracket.

6. Click lightly to fix. Ensure mirror is securely mounted.

8. Connect mirror to electric power.

HARDWIRE INSTRUCTION

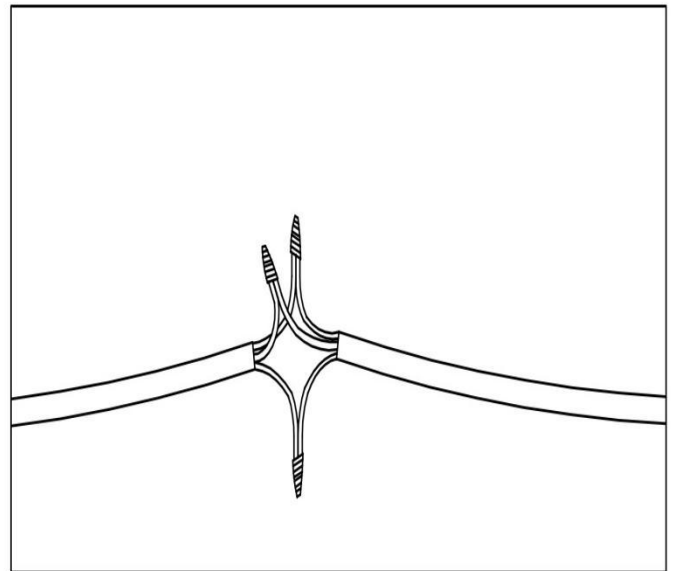

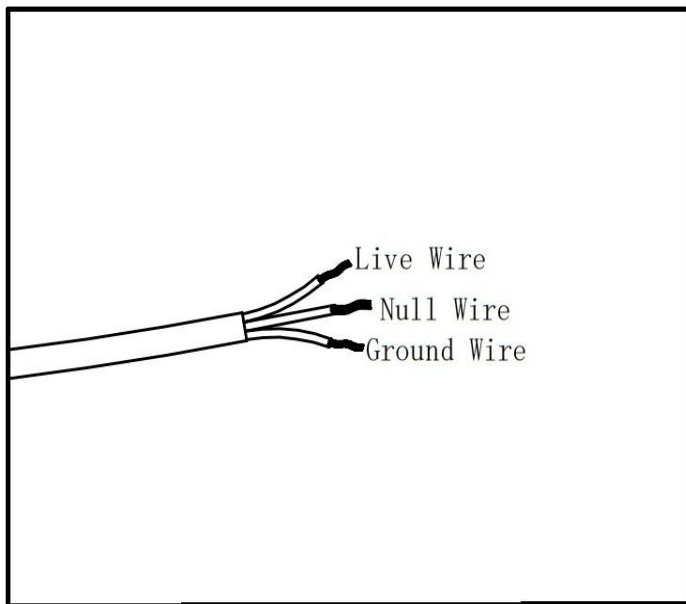

⚠️ INSTALLATION has to be made by a qualified/registered electrician. DO NOT attempt to install by yourself as WE will not be responsible if this product is not installed by a professional.

Before starting your installation, please make sure

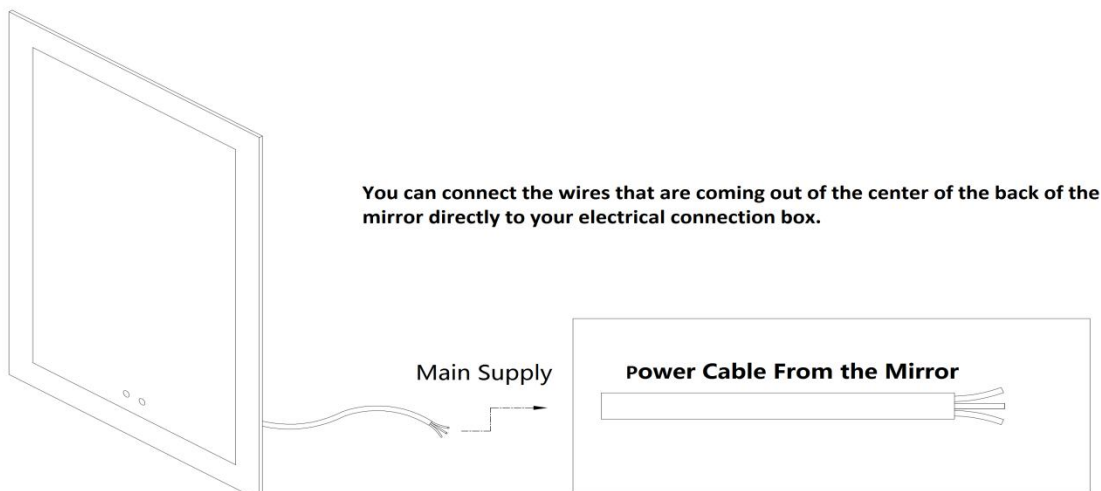

- The wall surface must be of suitable strength and construction
- The main electricity supply has been power off

Each mirror is equipped with a plug. If you want to use a wall switch to control the mirror light, please cut the plug. Therefore, You could connect the wires that are coming out of the center of the back of the mirror directly to your electrical connection box. The lead contains 3 wires:

- Copper Wire (Green) = GROUND wire. Connect to the ground wire in your box, or to the box as a ground.
- White = NEUTRAL wire. Connect to the White neutral wire in your box.
- Black = HOT wire. Connect to the Black hot wire in your box.

- (1) Cut the plug. You would see there three wires with three colors--white, green and black.
- (2) Safely connect these three wires one by one to the wires of wall switch in your home.

Operating Instructions

Turn on the light by the switch, and the heating pads works by the switch.

After Care Instructions:

1. Always switch off the electrical supply at the mains during installation and maintenance.
2. LED's have a life expectancy of 120,000 hours of continuous use. All LED light fittings and electric parts are replaceable and are available through NRG Mirror customer service.
3. Cleaning & Maintenance: it is recommended that the unit is cleaned with a soft, dry, non-abrasive cloth when turned off. Never use cleaning agents or abrasive material on any type of surface finish.
4. Do not strike glass components with hard or pointed items.
5. Do not place very hot or cold items against or close proximity to glass surfaces.
6. Wipe off all water spillages as soon as possible using a soft, damp cloth.
