## Lip Collection

### BABY LIPS

Bright & Light Neutral pigment, that consists of coral red, cooler red, white and yellow tones  
This shade perfectly lightens, while keeping the lips baby pink shade without heating warm or cool.

Fits anyone who is anywhere between Fitzpatrick 2-6 (for Fitz 6 we recommend to mix both pigments from the set). No pigmentation, freckle skin to yellow, olive and warm brown undertones.

### SHE'S HOT

Bright & Bold warm pigment, that consists of classic red, big portion of yellow, and coral red tones with the slightest amount of white.

This pigment will brighten the lips and keep them noticeably pink, rather than just lighten.

Fits anyone who is anywhere between Fitzpatrick 4-6. Dark brown with cool undertones.

### CLAY BABY

Ideal dusty rose color that opens up differently in each skin tone.

Don't be fooled by its warmer appearance, it cools down in the skin.

Suitable for application on clients of Fitzpatrick 1-5 skin type.

Pair Clay Baby with: Lollipop (pillow talk rose), Raspberry, Dark Strawberry, Warm Caramel, Ginger.

### CHOCO MAUVE

Perfect warm brown color that will make any other color of the collection - MAUVE. Have you ever had clients bringing their lipstick and call it mauve?

Now you can officially please them all by creating a unique custom Mauve. Using any pigment from MARA Pro lip blush collection modifying it with Choco Mauve.

Fits anyone who is anywhere between Fitzpatrick. 1-3. Do not use on dark lips.
