About Mara Colors

The goal of MARA is to make permanent makeup procedures accessible, simple and desired yearly.

There were no products on the market to create brows and have them faded in a year or two, so that a client could come back and get refreshers consistently. Instead they would rarely return after each session.

The skin is like a vessel - what we fill it with we will receive.

Make long lasting & predictable connections with your clients by using this soft MARA Pro Brow Pigment Line.
