

**MAVEN<sup>®</sup>**

**MAVEN CM SERIES**

Thank you for purchasing a Maven™ C Series Monocular. With this purchase you have told the world that quality, performance, and personality mean more to you than big-brand marketing. Included here are instructions for getting your optic ready for your first adventure. Rig it up, get out there and have some fun, then let us know all about your journey. We love hearing your stories as much we love making great products. Keep us in the loop at [stories@mavenbuilt.com](mailto:stories@mavenbuilt.com).

### PARTS OF THE MONOCULAR:

A. Ocular Lens

B. Twist-up Eyecup

C. Focus Adjustment

D. Strap Attachment

E. Objective Lens

**CAUTION** – monocular should not be used to look at the sun or any other bright light – this can permanently damage your eyes.

## INSTRUCTIONS FOR USE

### FOCUS ADJUSTMENT

The focus adjustment ring on the CM.1 is the orange ring next to the eyecup.

To focus:

1. Direct the monocular at your target object.
2. Bring the eye into perfect focus by turning the Focus Adjustment ring.

### EYE RELIEF ADJUSTMENT

The eyecup on your Maven monocular twists up so that any viewer can see the full field-of-view, with or without glasses. For best viewing with glasses twist cups all the way in. Depending on your facial structure or your angle of viewing, you might like the eye-cups twisted out one or more clicks.

## CARING FOR YOUR MONOCULAR

To maintain maximum performance of your Maven monocular, keep the lenses free of dirt, dust and grit. Protect the lenses with the included lens covers or use a case. It is best to store your Maven monocular in its carry bag when not in use.

## CLEANING

The eyecup can be removed and rinsed with clean water

1. Hold the eyecup and twist counter clockwise until the eyecup is removed from the monocular frame.
2. Rinse with water.

To clean the lenses:

1. Remove as much dust and dirt as possible from the lenses with a blower or bristle brush similar to the one included in our Lens Cleaning Kit. Canned air is not recommended.
2. Clean lenses of smudges or oil by using a small amount of liquid (fogging with your own breath or using optical cleaning fluid) and a micro-fiber lens cloth. The Maven binocular storage bag makes a good cleaning cloth. Ensure that the cloth is free from dirt and grit so as to not scratch the lenses. NEVER use a t-shirt, facial tissue or heavy cotton cloth on your lenses as they can scratch the lenses.

## **UNCONDITIONAL LIFETIME WARRANTY**

Maven optics are made with a commitment to you, our customer. All Maven optics come with an unconditional lifetime warranty\*. If your optic becomes damaged or is at all defective contact us immediately for repair or replacement. We don't care where or when you bought it or if it was your fault or not – if it says Maven, we will take care of it.

\*Warranty does not cover loss, deliberate damage, or cosmetic damage that does not hinder product performance.

Call us at 800-307-1109 or email us at: [customerservice@mavenbuilt.com](mailto:customerservice@mavenbuilt.com) with any questions.

For warranty/service repairs please visit: [mavenbuilt.com/warrantyreturns](http://mavenbuilt.com/warrantyreturns).

To ensure the fastest and easiest processing of any warranty return, please register your Maven optic. Jump on [mavenbuilt.com/warranty-registration](http://mavenbuilt.com/warranty-registration) to get registered quickly and easily.
