

# What's in my box?

1 TRELLIS

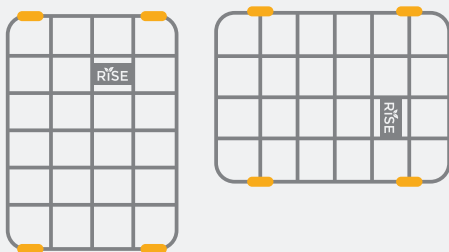

18 PLANT TIES

4 MAGNETIC TRELLIS CLIPS

## Trellis Layout

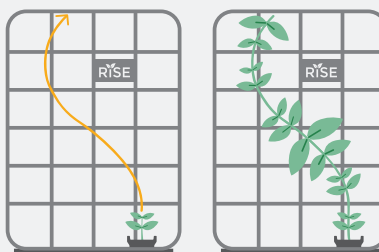

You can clip your Trellis to either your Base, or Extension levels by simply rotating it 90° and rearranging your Trellis Clips.

You can fit up to 3 Trellis' on your **Base level**, and 2 on your **Extension level**.

## How to use your Trellis

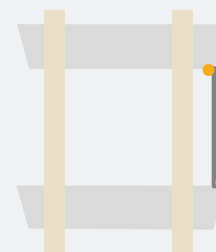

Your Trellis is designed to help you guide your vining plants up and out of the way of the rest of your plants. As your plant grows, carefully guide them up and over. You can use the **Plant Ties** to carefully secure the plant to the rungs of your Trellis.

### Vining plants:

Peas | Beans | Cucumber

## Clipping to your Garden

Place your **Trellis Clips** facing inward on top, and outward on the bottom. Your bottom **Trellis Clips** will attach to the inside of your white metal tray. Your top Trellis Clips will attach to the outside of the white metal tray above.

**Make sure to fully snap them in place on your Trellis before attaching to your Garden.**

**A note about our packaging:** This is the first time you've seen plastic as part of our packaging. We love the environment and are very conscious of our environmental impact. We received the product from our manufacturing partner with this plastic and decided to re-use it in order to minimize waste. While this will not be a normal occurrence, we wanted to share with you the reasoning behind this decision. As with all of our packaging, we encourage recycling it.
