## ABOUT THE PRO BARBER KIT II

The follow up to the Pro Barber Kit I, part II has all of the best from Kit I but includes the pivotal 'staying power' technique...the Style Hold Spray. The Pro Barber Kit II was intended to be the full, necessary (thicker hair application) collection of the mastered barber. Ultimately designed to simplify the at-home grooming experience.

## Contents of Pro Barber Kit II :

- 1 N'Hance™ Hair Fibers
- 1 N'Hance™ Style Hold Spray
- 1 Application Pump
- 1 Application Card
- 1 Instructional Manual

## HAIR FIBERS

### PURPOSE:

The N'Hance™ Hair Fibers were designed to diminish the appearance of patchy, balding areas within the beard or hair, by filling in with a keratin based protein. Blends flawlessly within existing hair, instantly making it fuller and thicker looking.

### HOW TO USE

After applying the N'Hance™ Style Hold Spray onto the desired location of the Hair Fibers application, bend the application card (optional) to help create desired shape. Push the application pump down to apply onto the desired area. Keep pressing the pump until desired area is filled in. Moving lightly across the area of application will help create a more realistic look. Do not press and hold in same place.

### WITHOUT AN APPLICATOR PUMP:

Twist cap off. Remove sticky shield to open product. Lightly shake fibers onto the area of hair where you are applying the product. Technique is not suitable for beard application.

### USE WITH APPLICATOR PUMP:

Twist to take cap off. Remove sticky shield to open the product. Remove top piece (with the dotted holes) by twisting and pulling off. Twist the applicator pump onto the Style Enhancing Fibers bottle. Once attached, press applicator pump down to begin use. Ideal technique for beard application and lines/edge application.

## APPLICATION PUMP

### PURPOSE:

Having a smoother and more accurate application of the N'Hance™ Hair Fibers. Creates short, realistic impressions of hair fibers across the face and head. Use when desired application process needs to be more controlled, like for cleaner edges or a sharper looking beard. Designed to simplify the at-home grooming experience.

### ASSEMBLY

After removing both pieces from the box: (Comes assembled in kit). Twist the tip into the application pump base. To clean, remove tip, soak in soap water then air dry. Do not use again until completely dry.

### USING WITH HAIR FIBERS:

The ideal application method. After removing the grated lid of the Hair Fibers (lid with the dotted holes). Take the applicator pump and twist onto the Hair Fibers bottle lid. Once attached, press applicator pump down to begin use. Best technique for beard application and lines/edge application.

## USE

Bend Application card in desired shape around the beard line (or hair line). Till card, while holding card against the face or head when applying the N'Hance™ Hair Fibers. Use card only when aligning the edges.

### PURPOSE:

The N'Hance™ Application Card was designed to assist in a sharper, more accurate grooming edge/line. Use with N'Hance™ Hair Fibers. Clean after each use.

## APPLICATION CARD

## STYLE HOLD SPRAY

### PURPOSE:

The N'Hance™ Style Hold Spray is scientifically formulated to work perfectly with N'Hance™ Hair Fibers. It is specifically designed to increase the attraction that binds the fibers to hair. Can be used as a lining spritz, for a more defined hairline. It will also soften and condition both hair and fibers for a completely natural look and style.

### HOW TO USE

You can apply product either before or after applying the N'Hance™ Hair Fibers, depends on user. Hold the bottle 8-10 inches away from hair and use in short, easy sprays. May be reapplied as needed. Use with application card (to keep product out of eyes) and for a more lined edge.

## LEGAL/DISCLAIMERS

Product use is at one's own risk. The Rich Barber® is not liable for any damage or injury resulting from use or misuse of this product for failure to comply with these instructions. Store product below or at room temperature, and away from sunlight. When traveling with product, make sure all caps are tightly shut to avoid other product damage. Do not spray content into eyes. If product goes into eyes, wash out immediately and thoroughly. Do not swallow the product, if accidental swallowing occurs, call your local poison control (800) 222-1222.
