

LADDERGARD™ SWING SAFETY GATE

High-traffic access ladders can present many risks and are often located in obscure areas. Wildeck's self-closing Laddergard™ Safety Swing Gates are adjustable to fit openings from 16" to 40" and comply with OSHA 1910.23 safety requirements. Laddergard™ gates are easy to install and have been designed for maximum durability and reliability. All installation hardware and mounting instructions are included.

Widths 16" - 26" = p/n WGLG-1626

Widths 27" - 40" = p/n WGLG-2740

Models
