

# SAFERGATE™ PEDESTRIAN GUARD RAIL GATE

Wildeck's SaferGate™ Pedestrian Crossing Gate offers a safe and convenient way to access equipment and areas protected by Wilgard® Steel Guard Rail Systems. This high-performance, self-closing swing gate installs in minutes onto new or existing XT, MT or LT Wilgard® guard rail columns. In addition to providing convenient access to protected areas, the SaferGate™ reduces a facility's accident potential by channeling pedestrians to specific areas.

## Models

**WGG-R**

*Right Opening*

**WGG-L**

*Left Opening*

## Features

- Self-closing, spring-loaded hinges tested to withstand over 100,000 cycles;
