RMC HYBRID WOOD PROTECTOR

RMC Hybrid Wood Protector

the ultimate allrounder for all your exterior wood

RMC Hybrid Wood Protector is a genuine 'monocoat', suitable for coloring and protecting almost all exterior wood in 1 single layer. The easy application and maintenance makes this oil an exceptionally user-friendly product. When adding 10% RMC Accelerator to the oil, it can be used perfectly for colouring and protecting interior wood.

REMARKS:

The pigment in the various RMC Hybrid Wood Protector colours contributes to the protection of the wood from greying. The colour PURE is not pigmented, which will cause the natural greying to occur in exterior environments.

The colours shown are for reference only and are not binding. Results depend on the chosen wood type, method of preparation, etc. It is always recommended to make a sample before applying the product to the complete surface.
