ARTISAN TRADITION

AN ITALIAN STORY OF SKILL & CREATIVITY

We are an Italian acoustic panel and soft seating company located in north east Italy. We design sophisticated acoustic wall panels and acoustic soft seating for many applications whether it is a home office, home theatre or a commercial establishment.

IT IS OUR JOB TO SILENCE YOUR NOISE MONSTERS.

In fact, our job is to contain all those troublesome noise monsters that make their way into your everyday life. Of course, the technical acoustic properties of our panels are important, however we are also about style and design. When it comes to your work or play environment the overall feel of your space should reflect who you are.

40 YEARS AND STILL GROWING

ACOUSTIC WALL PANELS

MADE STYLISH & EFFICIENT

Like a hand in glove - we want your space to look right, feel right and work right. You are making an investment into your space and you want to stay in fashion for years to come. This is where we step in. We are artisans with an eye for fashion, mixing colour, texture, weave and shapes into our acoustic wall panels and soft seating. We are focused on getting it right every time.

BRINGING YOU THE BEST IN ACOUSTIC PRODUCTS

You can depend upon us to deliver style while eliminating the noise monsters from your everyday life. No noise monsters are too big or too small. Say SILENCE to the Noise Monsters!

PREMIUM PRODUCTS

CHARACTERISTICS & FEATURES

We use contract quality ingredients when making our acoustic panels.

Our products are proudly hand made in Italy.

FIRE RESISTANT

Our panels are fire resistant & safe for the environment.

THE INSTALLATION SYSTEM

FIX-IT AS EASY AS 1-2-3

Installing our NoiseMonster panels using our hidden installation system is **EASY** and **SAFE**. Be confident to quickly install your wall panels and achieve a fabulous finish! **easyfix** with our Button-Fix installation system.

RED MARKER BUTTON

RED MARKER BUTTON
INSIDE THE BLACK FIX

MARKER TOOL

Use the ingenious red marker button to quickly and accurately align the panels on to the wall. There is no need for a tape measure or any guesswork! Snap a red marker into each black fix, then position the panel on the wall and press firmly. The red marker points will leave indents in the wall surface, which serves as a pilot guide to attach the green buttons on the wall.

GREEN BUTTON

BLACK FIX

CLIP & BUTTON

Green buttons are attached to the wall on the positions marked by red marker button. Four Black fixes come factory attached to the back of each panel. The green button simply clicks into the black fixes.

THE PANEL IS UP

Push on the panel firmly down or up until the green buttons 'click' into place.
