

SWEET SURRENDER FRUIT FLY TRAP PRODUCT USER GUIDE

Greetings, Friend.

The *Sweet Surrender® Fruit Fly Trap* is a scientifically tested, patent-pending contraption that provides unprecedented trapping and killing power. This contraption is enhanced by my specially formulated attractant to give you the tools you need to preserve your peace and sanity. In this guide, I provide tips to help you succeed in eradicating fruit flies from your home.

You are now equipped to enjoy a fruit fly free home.

Cheers,

Dr. Killigan

DR. KILLIGAN'S PROMISE

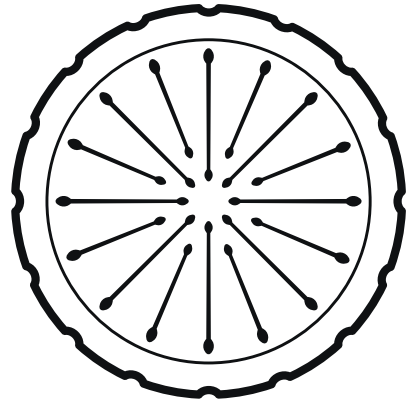

We firmly stand behind our products. If you are not satisfied with this product for any reason contact us at Support@DrKilligans.com and we will offer a replacement or a refund.

HOW IT WORKS

The trap's vent lines freely release the perfect amount of aromas, enticing fruit flies to the simulated sanctuary of the trap.

The fruit flies then follow these vent lines until they discover the perfect-sized entrance hole... one on either end of each vent line.

Upon entering, the intoxicating smells are too much for the tiny winged invaders to deny. They soon succumb to their weakness and, once they land in the rich concoction, meet their demise.

PRODUCT USE

HOW TO USE

Using Dr. Killigan's *Sweet Surrender*® Fruit Fly Trap is simple.

01

FILL

Pour one 2 oz bottle of Sweet Surrender liquid attractant into the fruit fly trap jar after removing the lid.

02

PLACE

Refasten the trap lid to the jar and set it out where fruit fly activity has been seen.

PRODUCT USE

EFFECTIVE AGAINST:

This fruit fly trap and attractant is specifically designed to lure and kill fruit flies. It was formulated specifically for fruit flies: (*L. Drosophila melanogaster*).

HOME USE:

Safe to use across all home surfaces in any areas where fruit flies gather.

NON-TOXIC:

The Sweet Surrender Fruit Fly Trap can be placed anywhere fruit fly activity has been seen. This product begins to work as soon as it is set.

Sweet Surrender includes a proprietary formula with safe ingredients, featuring a blend of vinegar and sucrose as key ingredients. This is a FIFRA 25(B) product and qualifies for exemption from EPA registration, meaning it has been declared to pose little to no risk to humans and the environment. It's people friendly, pet friendly and plant friendly.

SWEET SURRENDER FRUIT FLY TRAP FAQ

HOW LONG WILL A SINGLE 2 OZ BOTTLE OF SWEET SURRENDER LAST IN THE TRAP?

Sweet Surrender's formula will last up to 6 weeks once poured into the fruit fly trap. Various factors such as heat, air flow and light exposure can affect the longevity of the attractant.

IS THE FRUIT FLY TRAP REUSABLE?

The fruit fly trap is reusable. We offer a 16 oz Sweet Surrender refill liquid to replenish your fruit fly trap.

IS THE FRUIT FLY TRAP WASHABLE?

We recommend hand washing trap's jar and lid. High heat from a dishwasher can cause warping.

HOW MANY OUNCES DOES THE FRUIT FLY TRAP HOLD?

The fruit fly trap can hold just over 2 oz of attractant. We recommend only 2 oz of attractant to avoid submerging the funnel tip in the liquid.

CAN I USE ANOTHER CONTAINER TO HOLD THE SWEET SURRENDER ATTRACTANT?

Yes, but we recommend using the fruit fly trap because it reduces the evaporation rate of the Sweet Surrender attractant, providing the most cost efficient solution.

SHOULD I USE MORE THAN ONE FRUIT FLY TRAP?

In our testing, using traps in multiple locations increased our catch rates.

WHAT DOES A FRUIT FLY LOOK LIKE COMPARED TO GNATS AND DRAIN FLIES?

Unlike gnats and drain flies, fruit flies have rounded bodies. Gnats have elongated bodies and dangly legs like mosquitoes. Drain flies, though they have rounded bodies, are fuzzy with moth-like wings. In addition, fruit flies are solitary, whereas gnats and drain flies swarm.

HOW LONG WILL SWEET SURRENDER'S FORMULA LAST IN ITS CONTAINER?

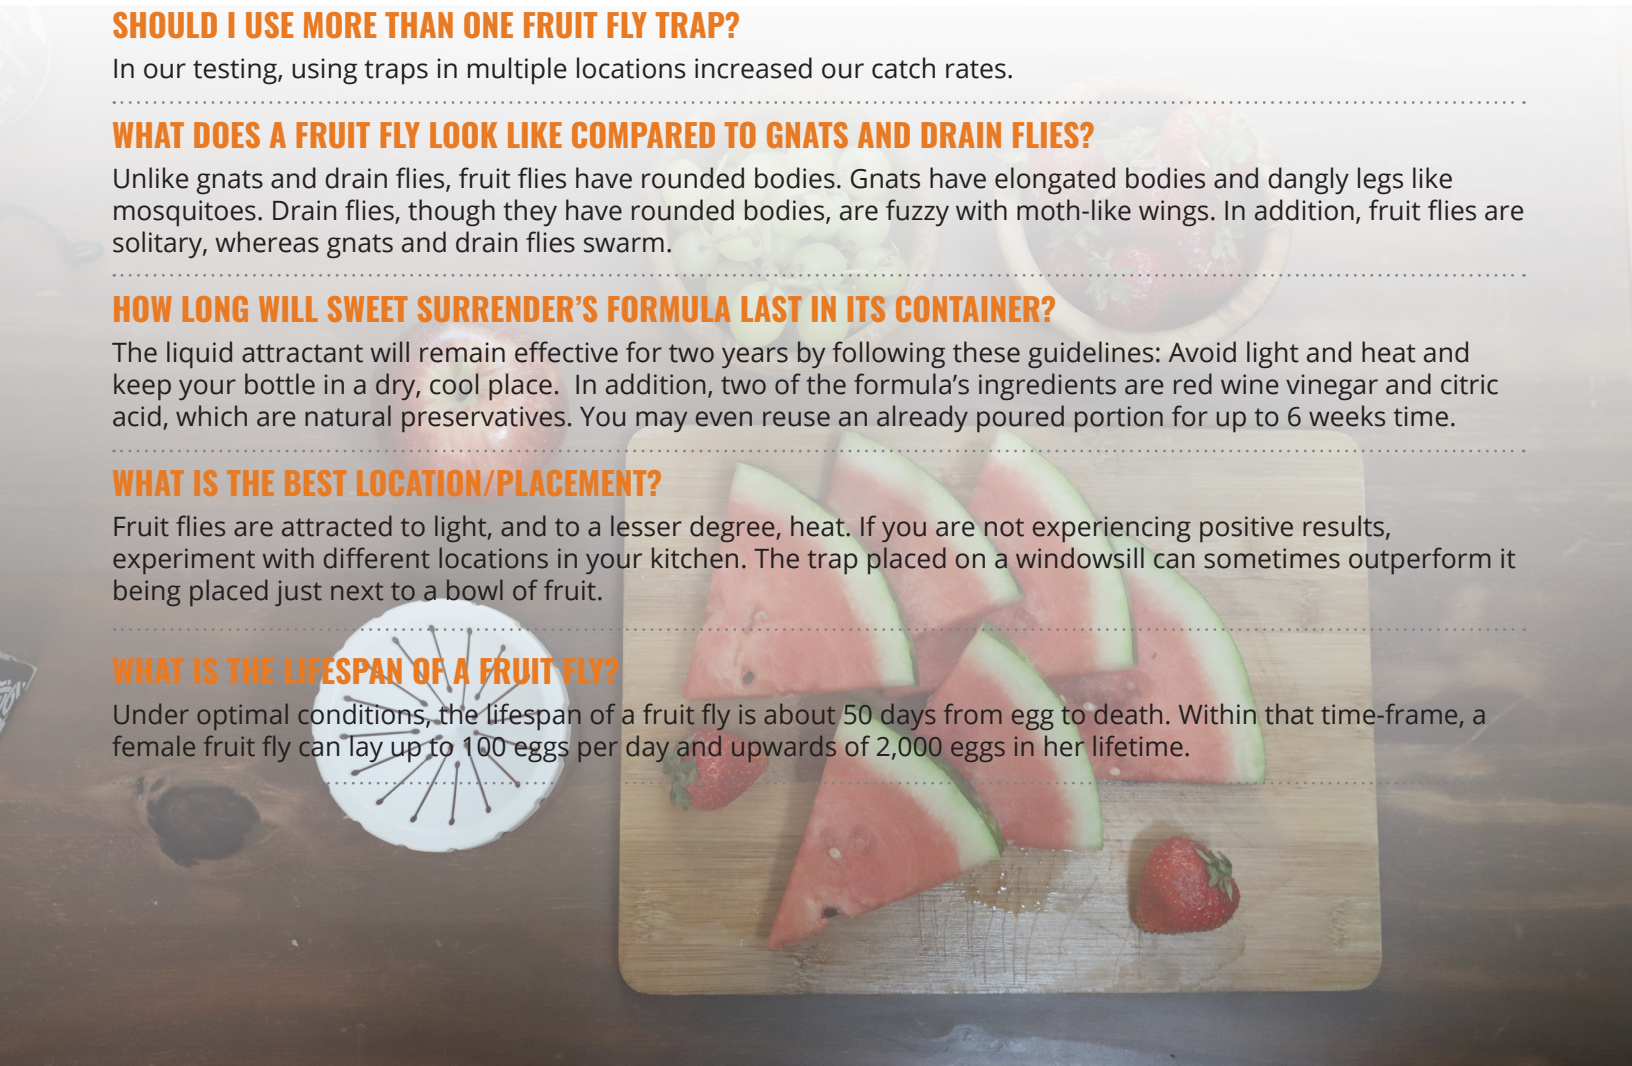

The liquid attractant will remain effective for two years by following these guidelines: Avoid light and heat and keep your bottle in a dry, cool place. In addition, two of the formula's ingredients are red wine vinegar and citric acid, which are natural preservatives. You may even reuse an already poured portion for up to 6 weeks time.

WHAT IS THE BEST LOCATION/PLACEMENT?

Fruit flies are attracted to light, and to a lesser degree, heat. If you are not experiencing positive results, experiment with different locations in your kitchen. The trap placed on a windowsill can sometimes outperform it being placed just next to a bowl of fruit.

WHAT IS THE LIFESPAN OF A FRUIT FLY?

Under optimal conditions, the lifespan of a fruit fly is about 50 days from egg to death. Within that time-frame, a female fruit fly can lay up to 100 eggs per day and upwards of 2,000 eggs in her lifetime.

SWEET SURRENDER FRUIT FLY TRAP FAQ

IS THERE ANYTHING ELSE I CAN DO TO HELP GET RID OF MY FRUIT FLY INFESTATION?

Take out trash, get rid of overly ripe fruit, clean up spills promptly, throw away old wine or beer bottles, and check inconspicuous places (under fridge, oven, below cabinets) for food debris.

WILL THIS PRODUCT ATTRACT DRAIN FLIES AND GNATS?

Though this product was not intended to attract drain flies or gnats, we have caught both in our testing.

NEED A REFILL?

We've got you covered. Our 16 oz Sweet Surrender Fruit Fly Trap liquid refill provides you with 8 long lasting refills for your reusable fruit fly trap. Shop now at DrKilligans.com.
