

RC2700

CR2 Multi-Surface

Hard surface, carpet & upholstery cleaning machine

The CR2 multi-surface cleaning machine combines a pressure washer with a powerful vacuum system for **Touch-Free** cleaning that effectively **deep cleans** floors, tiled walls, surfaces and restroom facilities.

Where traditional methods of cleaning like mopping are ineffective, the CR2 breaks loose dirt and grime from porous surfaces and hard to reach areas so it can be effectively removed with the squeegee and vacuum system. Auto-feed **D500 Microsan®** or **B125 Clensan®** for total hygiene.

The CR2 comes equipped with a powerful **500 psi pump** with built-in auto-chemical feed system for cleaning and pressure washing, a 3-stage vacuum system for quick and effective water and soil recovery, and a **built-in hose and wand caddy system** to easily transport the machine and all the necessary tools to the job site.

For complete versatility, the optional **Heat 'n' Run** system can be used to boost **cleaning performance** and the optional **carpet and upholstery cleaning accessories** can be utilised with the CR2 to make the machine a true **multi-surface restoration system**.

FEATURES

- Complete Touch-Free cleaning system
- Includes hoses, floor squeegee wand, pressure gun, quick drier tool and gulper tool
- Built-in auto chemical feed system for accurate metering
- 500 psi piston pump
- 3-stage vacuum
