CLENSAN® CONCENTRATE

LABEL INSTRUCTIONS

Product Description & Directions for Use:

A concentrated bactericidal detergent sanitiser and deodoriser for use on carpets, upholstery, floors and hard surfaces. Clensan's biocidal formula is approved to EN1276 and EN14476 and is effective against a wide range of harmful organisms including bacteria and viruses.

For professional and industrial use only.

Dilution rate (all surfaces): Mix 50ml of Clensan per litre of water (1 part Clensan to 20 parts water). Solutions should always be freshly prepared.

Carpets & Upholstery: Always pre-test carpet or fabric with ready-to-use Clensan solution for colour fastness and texture change before proceeding. Apply Clensan solution by spray applicator to carpet or fabric surface and allow 5 to 15 minutes contact time for effective sanitising. Extraction clean carpet with S777 Crystal Green or extraction rinse carpet or fabric with B109 Fibre & Fabric Rinse.

Floors and Hard Surfaces: Always pre-test surface to be treated with ready-to-use Clensan solution before proceeding. Apply Clensan solution by spray applicator and allow 5 to 15 minutes contact time for effective sanitising. Wipe hard surfaces or rinse floors with water then mop or extract with wet pick-up vacuum. When using scrubber driers always check recovery tank for excessive foam and use defoamer if required.

Clensan solutions should always be freshly prepared.

Do not mix Clensan with other chemicals or detergents.
