All Over Body Shampoo

Quality, bulk-fill thickened liquid shower and shampoo, with subtle fragrance.

Product code: XHBS5

The Energy Range - Laundry

Our laundry powders have been tested by independent test-houses who confirm they compare favourably with branded products. Made in-house to strict quality-control criteria. They are suitable for use in all machines at all temperatures.

Fabric Conditioner

A quality fabric conditioner that softens and reconditions fibres after washing, making ironing easier. Leaves laundry with a fresh, lasting fragrance whilst also reducing static and re-soiling problems. Available in 'Soft Blue' and 'Soft Peach'.

Product code: XFS5, XFSP5

Biological Laundry Liquid

A fully built laundry liquid suitable for automatic dosing into commercial machines operating at lower temperatures. A pre-wash is not generally required making this an ideal detergent for professional use.

Product code: XLLBIO5

Non-Biological Laundry Liquid

Fully built, this laundry liquid is suitable for all commercial machines operating at all temperatures. A pre-wash is not generally required making this an ideal non-biological detergent for professional use. Does not contain enzymes and is suitable for use on laundry and clothing worn by persons with sensitive skin.

Product code: XLLNON5

2 in 1 Laundry Powder

Suitable for all machines at all temperatures 2-in-1 contains enzymes for extra cleaning power at lower temperatures, a built-in fabric softener and discreet fragrance that leaves laundry clean, fresh and soft.

Product code: XWP2/1

Biological Laundry Powder

Containing protease enzymes that quickly degrade stubborn stains and soiling in a cool wash. Suitable for all machine types and containing a pleasant apple fragrance.

Product code: XBIO10

Non - Biological Laundry Powder

Suitable for all machines at all temperatures, this non-biological laundry powder does not contain perfumes and is therefore ideal for chef's whites, catering cloths, tableware and clothing worn by the elderly and people with sensitive skin.

Product code: XNON10

Laundry Pre-soak Powder

Makes a powerful pre-soak solution for the removal of stubborn stains and grime. Especially useful for removing soiling from bedding, towels, chefs whites, tableware and general catering clothing.

Product code: XDESTAIN

Double Hit Enzyme Pre-Spray

A highly effective spot cleaner for the removal of protein-based stains. This enzyme pre-spray digests difficult organic soiling and the staining caused by blood, vomit, dairy products, food and fat, prior to machine laundering.

Product code: ENZYME
