# ABOUT US

Our company has been dedicated to the business of producing and selling our aroma based products of excellent quality. In order to be up with the latest world trends in fragrances and aromas we participate in the leading trade fairs in major countries and supply many customers worldwide as well.

Aromatherapy has become a household trend of widespread acceptance in all homes as well as in all areas where excellent aroma and fragrance to the environment is desired. One can give aroma of freshness, nature, elegance, romantic or spiritually uplifting feelings and create many other types of environments with the aromas of the scented oils that you use. Check in the special accessories section of this website, the new burners which have arrived and are available for immediate shipment.

Scented oils are a combination of fragrances and high quality oils, which when exposed to a heat source such as the flame of a tealight in a special burner or other types of diffusers, the scented oil will slowly rise as vapor mist leaving the scent flowing through the air. There are fragrances of scented oils, which cover several ranges of aromas: nature, flowers, woods, fruits, incense, and all the way to our version of certain common perfume scents. There are also scented oils to help create special moments such as meditation, success, etc.

Our production capacity is sufficient to supply large requirements for wholesale orders and we can do private label service as well.

# OUR PRODUCTS

## LUXURY AROMA OIL

This is our high-quality and premium-grade aromatic oil used in aromatherapy or fragrance applications. These oils are often sourced from the finest botanicals and are known for their exceptional purity, exquisite scents, and therapeutic properties. In this luxury line we offer over 22 different fragrances and different sizes.

## FRAGRANCE OIL

Our fragrance oils come in a wide range of scents and can replicate the scent of various natural substances, flowers, fruits, spices, and other sources. They are perfect for use with a diffuser, or burner lamps. We offer over 97 different fragrances in three different sizes.

## ESSENTIAL OILS

Essential oils are highly concentrated, aromatic compounds derived from various parts of plants, such as leaves, flowers, bark, roots, seeds, or peels. They are extracted through processes like steam distillation, cold pressing, or solvent extraction. This oil has been used in various cultures for their therapeutic, medicinal, and aromatic properties.

## HVAC FRAGRANCE

HVAC fragrance oils are typically more concentrated than regular fragrance oils used in other applications. They are specifically designed to withstand the heat and air pressure of the HVAC system and the cold air diffuser, ensuring that the fragrance remains stable and long-lasting during the diffusion process. We offer over 97 different scents in 3 sizes.

# OUR PRODUCTS

## HVAC OIL COLLECTIONS

Our HVAC collection line is made up of the most luxurious aromas, being inspired by the most luxurious hotels, perfumes, flowers and fragrances, offering more than 5 different collections giving more than 55 different fragrances

## GIFT SETS

the Gift set is filled by a perfect combination of different essential oils, giving the choice of how many essential oils you want, we offer set of 6pcs, 8pcs, 12pcs, 16pcs and 32pcs, giving you the opportunity to have the different essences and their benefits in a single set.

## CARRIER OIL

A carrier oil, also known as base oil or vegetable oil, is a neutral, typically odorless, and non-volatile oil used to dilute essential oils and other concentrated substances before they are applied to the skin. Carrier oils are commonly used in aromatherapy and various skincare practices to make essential oils safer for topical use and to enhance their benefits.

## POOP SHIELD

Our poop shield is a protective barrier or cover designed to prevent or minimize contact with undesirable situations. We made with natural essential oil that leave the bathroom smelling amazing and liberate you from harmful ingredients and inhibiting worries, offering 4 different fragrances in 3 sizes.

# OUR PRODUCTS

## AIR FRESHENERS

Our air fresheners are products designed to improve the smell and atmosphere of indoor spaces by adding a pleasant fragrance or neutralizing unwanted odors. They come in two sizes and with more than 20 different fragrances. Air fresheners work by releasing aromatic compounds into the air, which either mask unpleasant odors or interact with odor-causing molecules to reduce their impact.

## BODY MIST

Our body mist is our fragrance product designed to lightly perfume the skin and provide a subtle, refreshing scent. Body mists come in a wide variety of scents, ranging from floral and fruity to fresh and aquatic, curating the best and most popular fragrances to offer over 11 different body mist fragrances.

## ULTRASONIC DIFFUSERS

Is a aromatherapy device that uses ultrasonic vibrations to disperse essential oils into the air. It consists of a water reservoir and a membrane that vibrates at a high frequency. These vibrations break the essential oils into tiny particles, creating a fine mist or vapor that is released into the surrounding environment.

## COLD AIR DIFFUSER

Is a aromatherapy device that disperses essential oils into the air without using heat or water. Cold air diffusers utilize a stream of cold air to disperse the essential oils in their pure form. The versatility and simplicity of cold air diffusers have made them a popular choice among people who value the natural benefits of aromatherapy.

# OUR PRODUCTS

## HVAC AROMA DIFFUSER

HVAC aroma diffuser is a specialized device that combines the functionalities of an HVAC diffuser with aromatherapy, allowing it to disperse pleasant scents or essential oils throughout a building's HVAC system. Using nebulization technology to release tiny nanoparticles into the air, creates a subtle and consistent scented environment.

## PLUG IN OIL BURNER

A wall plug-in oil burner, is a small electrical device used to disperse aromatic oils or fragrances into the air. It is a convenient and compact alternative to traditional oil burners that use a heat source to warm essential oils. To use it, you simply fill the oil dish with your preferred aromatic oil or fragrance, and then plug it into the electrical outlet

## DIMMER LAMP OIL BURNERS

Dimmer lamp oil burners incorporate a dimming feature. These burners are used to diffuse aromatic oils or fragrances into the air, creating a pleasant ambiance while also allowing you to adjust the level of light emitted by the burner. The dimming feature allows you to create the desired level of illumination while enjoying the fragrance of your chosen essential oils or fragrance oils.

## ORGONE PYRAMID

An Orgone Pyramid is associated with alternative healing practices and metaphysical beliefs. Orgone is a universal life force energy that permeates everything in the universe. Orgone energy is believed to have positive effects on physical, emotional, and spiritual well-being. Orgone Pyramids can help you to Balance Energy, Clear Negative Energy, enhance Meditation and Spiritual Practices, and improve Sleep and Well-Being.
