

TRANSLATION OF ORIGINAL MANUAL

Congratulation! You have chosen a quality vaporizer, which is carefully designed and among the most efficient on today's market.

GENERAL WARNINGS

- To identify the instructions for the model in your possession, read the data on the label fixed to the rear of the item.
- Before connecting up the apparatus to the mains supply, check that the data indicated on the label (voltage and absorbed power) correspond to the characteristics of the electric power system
- Before mounting the apparatus on the stand be sure it is disconnected from the electric power supply.
- In the case of the wall-mounted arm, the Company moreover declines all responsibility for injury or damage resulting from the unsuitability of any support made of masonry or other material.
- The apparatus can be cleaned using a cloth moistened with water or ordinary commercially available detergents, provided they do not contain alcohol or acetone. However, before cleaning make sure that the appliance is disconnected from the electric power supply and that it has cooled down properly.

Never use this appliance near water container in bath tubs, sinks or other container. This vaporizer must be fixed far from people using the bath tub or the shower.

- Water poses a serious hazard even when the device is switched on do not leave device connected to power supply after use in the bathroom.
- For replacement of internal parts or in case of damage to the power cord, contact the manufacturer or service centre, or similarly authorized personnel.
- To the aim to assure an additional protection it is advised to install, in the electrical circuit who feeds the premises from bath, a differential power unit, whose current differentiates them of nominal operation is not advanced to 30mA. Ask your technical service a council in merit.

- This appliance can be used by children aged from 8 years and above.
- The appliance is not to be used by children or person with reduced physical, sensory or mental capabilities, or lack experience and knowledge, unless they have been given supervision or instruction.
- Children shall not play with the appliance.
- Cleaning and user maintenance shall not be made by children without supervision

IMPORTANT: Switch on the device and wait for the leakage of steam before you let the customer and proceed to the various processors.

CAUTION:

DO NOT TOUCH HOT SURFACE DURING OPERATION

FILLING WITH WATER

Remove the filler cap F and pour the water in the boiler H using the jug provided. To achieve a better technical result and ensure longer service life of the apparatus, you are recommended to use distilled water. When you have filled the boiler unit up, put the cap back on

Caution: Never turn on the appliance with the water level to a minimum.

CONDENSATE TANK

Check that the container for collecting condensate is not too full; make sure to empty it out regularly (see fig.).

Periodically check that the condensate in the hood is always free to drain away as it should and thus prevent any drops of condensate dripping on the customer

PROGRAMMING WORKING TIME

Set the working time from 0 to 60 minutes by turning the timer knob (A) clockwise. When the time has elapsed, the knob returns automatically to the "0" position. During operation of the apparatus, you can at any moment turn the knob counter clockwise to take it back to "0", thus using it as a switch.

PROGRAMMING OF QUANTITY AND TEMPERATURE OF STEAM

Set the knob of the electronic partializer (B) on the graduated scale 1 to 10. To obtain steam output in the shortest time possible, set the knob of the partializer (B) straightaway on the maximum value (10). When the steam starts coming out, set the desired temperature and rate of delivery.

CONTROLS ON FUNCTIONS

When the green warning light (D) is lit up, it indicates that the vaporizer is in operation.

EXTRAORDINARY MAINTENANCE

In case should it be clean the tank of the boiler and resistance to impurities or limestone proceed as follows.

Remove the plug from the outlet and wait for the bath to cool.

Firmly grasp the bath and rotated in the direction (OPEN).

Descal the tank and the resistance and make sure the gasket placed on the tub is properly positioned.

Put the tank back into its housing, pressing up and rotate it (Close) taking care to tighten.

(Correct position with the min and max symbols visible on both windows)

**THE COMPANY DOES NOT ACCEPT RESPONSIBILITY FOR A POSITION INCORRECT.
RELY ON A PROFESSIONAL OR CHARGE IF IN DOUBT**

Limite di garanzia

Limite min. acqua

Un utilizzo dell'apparecchio con livello acqua al limite o sotto di esso potrebbe danneggiare o bloccare l'apparecchio

L'utilizzo al di sotto del limite fa intervenire una serie di sicurezze che potrebbero rendere inutilizzabile l'apparecchio e necessario l'intervento di un centro di assistenza autorizzato

LA GARANZIA NON COPRE DANNI O ALTRO CAUSATI DALL'UTILIZZO DELL'APPARECCHIO. AL MINIMO D'ACQUA

CARICARE SEMPRE L'ACQUA DOPO OGNI LAVORAZIONE PER ESSERE SICURI DI NON ANDARE SOTTO AL MINIMO

Warranty disclaimer

Water min. limit

Using the device with a level of water too close to the minimum recommended, or even below it, can cause damages or even a complete block of the device itself because of a series of safety measures that would be automatically triggered, making the device unusable and therefore requiring the intervention of an authorized service center.

THE WARRANTY WILL NOT COVER DAMAGES OR MALFUNCTIONS CAUSED BY USING THE DEVICE WITH INSUFFICIENT WATER.

BWARE OF REFILLING THE WATER TANK AFTER EVERY USE TO AVOID GOING BELOW THE RECOMMENDED LIMIT

- La ditta non risponde di danni a persone o cose dovuti ad installazione o montaggio eseguiti in contrasto con le A.A.GG. o con supporti e/o accessori non di nostra produzione o da personale non specializzato od autorizzato.

- The Company declines all responsibility for any injury to persons or damage to things caused by installation or assembly that has not been carried out in compliance with the General Warnings, or using supports and/or accessories other than those manufactured by us, or by non-specialized or non-authorized staff.

BASE A PIEDE

ITALIANO

BASE A PIEDE - Istruzioni di montaggio

- Inserire le 5 razze (E) nel mozzo centrale (A)
- Inserire la piantana (B) nell'apposita sede della base centrale (A) e dopo averla inserita, bloccarla da sotto per mezzo della vite di fissaggio con il peso e la rondella (D).
- Allentare il manicotto di plastica della piantana (B) ruotando la vite in senso antiorario ed inserire la piantanetta (C) appoggiandola nell'innesto senza comprimere la molla alloggiata all'interno della piantana (B). Bloccare la piantanetta (C) ruotando la vite in senso orario.
- Inserire lo snodo dell'apparecchio sulla piantanetta (C) e regolare l'altezza desiderata agendo sul manicotto come descritto sopra al secondo paragrafo.

BASE WITH STAND

ENGLISH

BASE WITH STAND - Instruction for assembly

- Insert the 5 spokes (E) in the central hub (A).
- Introduce the supporting pole (B) into its housing at the top of the central base (A) then secure it by tightening the screw with the weight and the washer (D) at the bottom.
- Loosen the plastic sleeve of the pedestal (B) turning it counterclockwise. Insert the small pedestal (C) resting it in the socket without to compress the spring inside the pedestal (B). Fasten the small pedestal (C) on, turning the sleeve clockwise.
- Insert the articulated joint of the appliance onto the stud (C) and regulate its height turning the sleeve as described at second paragraph.
