How to take correct measurements

Make sure to hold the tape measure flat against the body and to place it horizontally around the circumference of the area.

1 Chest girth

Measure horizontally across the most prominent part of the chest.

2 Waist girth

Measure the waist at the narrowest part of the torso.

3 Hips

Use the tape to measure the most prominent part of the bottom.

4 Arm length

The arm length is measured from the sleeve head, along the outer edge of the elbow and down to the wrist. The elbow should be slightly angled.

1 Foot length	24.2	24.6	25	25.5	25.9	26.3	26.7	27.2	27.6	28	28.4	28.9	29.3	29.7	30.1	30.9	31.7

How to take correct measurements

Always measure both feet and use the results from the bigger foot. If you are in-between two sizes, we advise you to order the larger one.

1 Foot length

Your foot length is the measurement from your big toe to the end of your heel.

Gloves for adults

Men's gloves	XS	S	M	L	XL
To fit approx.	6-7	7-8	8-8.5	8.5-9	9+
1 Hand girth	17.5-19	19.5-21	21.5-23	23.5-25.5	26-28

How to take correct measurements

Don't have a tape measure on you? No worries. Use a strip of paper to act as a tape measure. Mark the spot where the strip overlaps, then use a ruler or yardstick to measure the length.

1 Hand girth

Lay the measuring tape across the hand, placing it below the knuckle and above the thumb.
