

# Cellmax Bio Organic Bloom

## Technical Product sheet

### Bio Organic Bloom

Cellmax Bio-Organic Bloom is an easy-to-use liquid organic fertilizer designed for plant flowering. This product guarantees an explosive development of the fruit and a perfect taste.

This natural bio-organic fertilizer has been specially developed by Cellmax Nutrients as a single-component nutrient for the cultivation of organic plants. Bio Organic-Bloom is an organic fertilizer based on vegetable ingredients, enriched with proteins, vitamins and natural acids to create optimal conditions. Can be used on all types of soil.

### Ingredients

Elements	mg/kg
B	24 mg/kg
Cu	5,9 mg/kg
Fe	82 mg/kg
Mn	59 mg/kg
Mo	< 5 mg/kg
Zn	18 mg/kg
N-totaal	4%
N03-N	< 0,1%
NH4	0,4%

Elements	mg/kg
N-Org	3,5%
P205	1,6%
K20	1,4%
Ca0	0,4%
Mg0	<0,1%
Na20	2,1%
S	0,7%
SO3	1,7%

Total dry matter	60,7%
Ash residues	13%
Organic matter	47,7%
pH	5,0-6,0

### Dilution advice:

(1:250) 2-4 ml per 1L of water

Apply 2 to 4 times a week to your plants in the flowering phase.

### Advice:

Shake well before use

Bio-Organic Bloom works best with hand watering.

**Use:** Do not prepare the solution more than 48 hours in advance. It is not necessary to adjust the pH of the solution

### Benefits:

- Entirely vegetable,
- For more fruit and flowers
- increase the quality and size of the final result
- Increases stress resistance
- Improves taste and sugar content
