

Cellmax Bio Rootbooster

Technical Product sheet

Bio Rootbooster

Cellmax BIO-Rootbooster is a powerful plantbased root stimulant for young plants. Rootbooster stimulates rapid growth of the root system. Rootbooster is ideal for cuttings and plants that need to be repotted or are unhealthy.

Cellmax BIO Rootbooster is a plant root stimulator. This product provides explosive root growth and develops more root hairs, resulting in better absorption of nutrients available in the substrate, resulting in stronger and healthier plants. BIO Rootbooster also helps to reduce plant stress during potting (transplanting) and reduces the risk of disease. Cellmax Bio Rootbooster is rich in organic trace elements, vitamins, amino acids and has a vitalizing effect on plants.

Elements	mg/kg
B	19 mg/kg
Cu	< 5 mg/kg
Fe	17 mg/kg
Mn	< 5 mg/kg
Mo	< 5 mg/kg
Zn	< 5 mg/kg
N-totaal	0,1%
N03-N	< 0,1%
NH4	<0,1%

Elements	mg/kg
N-Org	<0,1%
P205	<0,1%
K20	1,4%
Ca0	< 0,1%
Mg0	<0,1%
Na20	0,3%
S	<0,1%
SO3	0,2%

Total dry matter	7,5%
Ash residues	3,1%
Organic matter	4,4%
pH	8,0-9,0

Dilution Advise:

(1:250) 2-4 ml per 1L water

Advice:

Shake well before use

Product Benefits:

- Completely Vegan
- Gives plants stable growth
- Increases root mass
- Increases stress resistance
- Increases micronutrient absorption

Authorised for organic farming and horticulture under Regulations (EC) No 889/2008 and (EC) No 834/2007.
