

# LIFEJACKET™

## Introducing the Lifejacket™ Laminating Pouch Protector

Available in...

### A reliable concept

The Lifejacket™ is an innovative product designed to permanently eliminate the risk of jams and wrap arounds when laminating. This pouch protector gives you the flexibility to laminate a multitude of documents, reliably and effectively.

### Flexible laminating

Even unusual shapes can be laminated safely using the Lifejacket™. The product is made from Teflon® which allows complete heat penetration through the laminating pouch and document, giving excellent results every time.

### Cleans as you laminate

The Lifejacket™ prevents excess glue from laminating pouches seeping onto the rollers and is an effective way of easily maintaining high quality results from your laminator.

### Long lasting

The unique Teflon® construction means the Lifejacket™ will outlast any standard card carrier and saves on waste.

Lifejackets can be purchased individually in A4, A3 and A2 sizes and are designed to work with any pouch laminator.

### IDEAL FOR PROTECTING

- Artwork
- Newspaper cuttings
- Business cards
- Small, cut out pieces - name badges, tags, drawer labels
- Learning aids (shapes, letters, numbers, keywords) and many more...

### GREAT FOR USE IN

- The general office or retail outlets
- Education - Schools, Colleges and Universities
- Nurseries and pre-school
