

# All Up

## Cleaner / Sanitiser

ALL UP is a powerful water based quaternary ammonium compound which inhibits bacteria growth. ALL UP is a hard surface cleaner, ideally suited for automatic scrubbers. Special blends of essential oils and perfume compounds neutralise and deodorise malodours.

### How to Use

Use ALL UP as a floor maintenance cleaner both with mop and bucket and automatic scrubber on terrazzo, vinyl, concrete, painted and all sealed surfaces.

<b>Light Cleaning</b>	One part product to 100 parts water
<b>Heavy Cleaning</b>	One part product to 20 parts water
<b>General Purpose Cleaning</b>	To clean toilets, rest rooms, kitchens, factories, veterinarian surgeries, motels, hotels, caravan parks, hospitals and nursing homes. Dilute one part product to 50 parts water. Apply by mop and bucket or spray and wipe method.
<b>Sanitising</b>	Floors, walls, wash basins and bench tops. Dilute one part product to 20 parts water. Example 250ml to 5 litres of water. For effective use make solution fresh daily, discarding day old solution. Do not mix with soaps or detergents.

Features	Advantages	Benefits
3 way cleaning action: clean/disinfect/deodorise	Labour saving	Saves money & labour
Biodegradable	Safe to the environment	Peace of mind
Concentrated	Re-odorises	Economical
