

Section 1. Identification

Product identifier: Arid Enviroclean Liquid Cleaner Product Code: ARIDCL

Other means of identification: N/A

Recommended use and restrictions on use: Urinal cleaning system. Use in accordance with directions on

product label.

Caringbah NSW 2229

Supplier: True Blue Chemicals

Street Address: 2/1 Endeavour Road Postal Address: PO Box 334

Caringbah NSW 1495

Phone No: 1800 635 746 Fax No: 02 9540 1983

Internet: www.truebluechemicals.com.au

Emergency Phone No - 13 11 26 - Poisons Information Centre

Section 2. Hazards Identification

Classified as hazardous according to the criteria of Safe Work Australia (SWA).

Classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail, Edition 7.3.

GHS Classification

Skin corrosion/irritation - Category 1
Serious eye damage/Irritation - Category 1

Signal Word

DANGER

Hazard Statements

Causes severe skin burns and eye damage.

Pictograms

Precautionary Statements

Do not breathe mists or vapour.

Wash hands thoroughly after handling.

Wear protective gloves, protective clothing and

eye/face protection.

IF SWALLOWED: Rinse mouth. Do NOT induce

vomiting.

IF ON SKIN (or hair): Remove immediately all

contaminated clothing. Rinse skin with water/shower.

Wash contaminated clothing before reuse.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Immediately call the POISONS INFORMATION CENTRE (13 11 26 Australia only).

Store locked up.

Dispose of contents and container in accordance with State jurisdiction.

Section 3. Composition and Information on Ingredients

| Chemical Name | CAS Number | Percentage (%) |
|---|------------|----------------|
| Glycolic acid | 79-14-1 | 10 - 30 |
| Phosphoric acid | 7664-38-2 | 1 - 10 |
| Other ingredients determined not to be hazardous or below conce | to 100 | |

Section 4. First Aid Measures

Swallowed: Do NOT induce vomiting. Give plenty of water to drink. Get immediate medical attention.

Eye Contact: Rinse with plenty of water for at least 15 minutes holding eyelids open. Remove contact lenses, if

present and easy to do. Continue rinsing. Seek immediate medical attention.

Skin Contact: Wash skin with plenty of water. Remove contaminated clothing and wash before reuse. Seek immediate

medical attention.

Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If symptoms

develop, seek medical advice.

Symptoms caused by exposure: Skin and eye burns with redness, swelling, blurred vision. May experience nausea, vomiting and diarrhoea if swallowed.

Medical attention and special treatment: No specific treatment. Treat symptomatically.

Section 5. Fire Fighting Measures

Suitable extinguishing equipment:

Not flammable. Use extinguishing media suitable for surrounding fire.

Specific hazards arising from the chemical:

Carbon dioxide, carbon monoxide & other toxic gases may be produced in the case of fire.

Special protective equipment and precautions for fire fighters:

Firefighters should wear full protective clothing including self-contained breathing apparatus & chemical splash suit. Remove from the vicinity containers not involved in the fire.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:

Clean up spill promptly to avoid accidents. Wear protective equipment (see Section 8) to prevent skin & eye contamination & inhalation of mists and vapours. Stop leak if safe to do so. Ensure adequate ventilation.

Environmental precautions:

Ensure no spillage enters drains or waterways. If product does enter a waterway, advise the Environmental Protection Authority or local Council.

Methods and materials for containment and cleaning up:

Cover with damp absorbent material (inert material, sand or soil). Sweep up, but avoid generating dust. Collect & seal in properly labeled drums for disposal.

Section 7. Handling and Storage

Precautions for safe handling:

Observe good personal hygiene practices and recommended procedures. Wash hands thoroughly after handling. Avoid contact with eyes, skin and clothing.

Conditions for safe storage, including incompatibilities

Store in a cool, dry, well-ventilated place & out of direct sunlight. Store away from strong alkalis. Keep containers closed at all times - check regularly for spills.

Section 8. Exposure Controls and Personal Protection

National Exposure Standards: An occupational exposure standard (OEL) has not been established for the product. The following components have been listed with an OEL as per Safe Work Australia - Workplace Exposure Standards for Airborne Contaminants.

| Ingredient Name | CAS No | TWA (ppm) | TWA (mg/m³) | STEL (ppm) | STEL (mg/m³) | |
|------------------|-----------|--------------|----------------|---------------|-----------------|-----|
| Phosphoric acid | 7664-38-2 | - | 1 | - | 3 | |
| 2-Butoxyethanol* | 111-76-2 | 20 | 96.9 | | 50 | 242 |

^{*} Absorption through the skin may be a significant source of exposure.

Engineering Controls:

Natural ventilation should be adequate under normal use conditions. Avoid generating and inhaling mists and vapours. Keep containers closed when not in use.

Individual Protection Measures:

Eye and face protection Chemical resistant goggles should be worn to prevent eye contact.

Skin protection Wear gloves made from rubber, neoprene, nitrile, polyethylene to prevent skin contact.

Not normally needed. If significant vapours or mists are generated, use an appropriate Respiratory protection

respirator in accordance with AS/NZS 1715 and AS/NZS 1716.

Thermal hazards Refer to Section 5.

Section 9. **Physical and Chemical Properties**

Appearance: Liquid Colour: Red

Odour: Boiling Point(°C): Not available Floral Vapour Pressure: Not available Specific Gravity: 1.03 - 1.05

Flashpoint (°C): Not available Flammability: Not flammable

Water Solubility: Complete pH: 0.5 - 1.5

Auto-ignition Temperature: Viscosity: Not available Not available **Relative Density: Evaporation Rate:** Not available Not available Vapour Pressure **Melting Point/Freezing Point** Not available Not available

Partition Coefficient:

Upper/Lower Flammability or Not available Not available n-octanol/water

Explosive Limits:

Section 10. Stability and Reactivity

Reactivity: Not reactive.

Chemical Stability: Stable under normal ambient storage conditions.

Possibility of Hazardous Reactions: Hazardous polymerization will not occur.

Conditions to Avoid: Avoid high temperatures (store below 30°C) and direct sunlight. Protect against physical

damage.

Incompatible Materials: Do not mix with other chemicals. Store away from strong alkali and strong oxidisers.

Hazardous Decomposition Products: Oxides of phosphorus, oxides of carbon, hydrogen gas.

Section 11. Toxicological Information

Information on Route of Exposure

Acute Toxicity:

Swallowing in small amounts is unlikely to cause any adverse effects. Larger doses may cause Ingestion:

nausea and vomiting.

Eye Contact: No effects known. Skin Contact: No effects known.

Inhalation: In large amounts can cause headache, nausea and mucous membrane irritation.

Skin Corrosion/Irritation: Causes severe skin burns. Serious Eye Damage/Irritation: Causes serious eye damage.

Respiratory or Skin Sensitisation: Not classified Germ Cell Mutagenicity: Not classified

Carcinogenicity: Not classified Reproductive Toxicity: Not classified

Specific Target Organ Toxicity (STOT) - Single Exposure: Not classified Specific Target Organ Toxicity (STOT) - Repeated Exposure: Not classified

Aspiration Hazard: Not classified

Immediate, Delayed and Chronic Health Effects From Exposure: May experience redness and irritation,

headache, nausea and vomiting.

Other Information: None known.

Section 12. Ecological Information

Ecotoxicity: No product data available.

Persistence and Degradability: No data available.

Bioaccumulative Potential: Not expected to bioaccumulate

Mobility in Soil: Not determined
Other Adverse Effects: None known

Section 13. Disposal Considerations

Disposal Methods Refer to State/Territory Land Waste Management Authority for specific disposal

instructions. Dispose of material through a licensed waste third party, in

accordance with local regulations.

Section 14. Transport Information

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG 7.3) for transport by Road and Rail.

UN Number 3265

Proper Shipping Name or Technical Name CORROSIVE LIQUID ACIDIC, ORGANIC, N.O.S (GLYCOLIC

ACID)

Transport Hazard Class 8
Packing Group II

Environmental hazards for Transport purposesNot applicableSpecial User PrecautionsNot applicableAdditional InformationNot applicable

Hazchem or Emergency Action Code 2X

Section 15. Regulatory Information

AICS All substances are listed on the Australian Inventory of Chemical Substances.

Poisons Schedule (SUSMP) None allocated.

Section 16. Other Information

This information is provided to the best of our knowledge and belief, accurate as of the last revision date. It is provided in good faith and relates to the specific materials designated. True Blue Chemicals assumes no liability or responsibility for loss or damage resulting from improper use or handling of our products from incompatible product combinations or from failure to follow usage directions. This document remains the property of True Blue Chemicals Pty Ltd. Alterations are not permitted without prior written authorisation from True Blue Chemicals Pty Ltd.
