

Jet Safe #16

Premium machine dishwashing liquid

Features and Benefits

- Safer for operators – contains no caustic soda to attack their skin.
- Safe on Aluminium – Jet Safe will effectively clean all aluminium ware without damage, safely.
- Removes all soils normally encountered in commercial dishwashers. Leaves table ware sparkling clean.
- Jet Safe removes tea, coffee and lipstick stains from crockery and glassware.
- Jet Safe maintains top efficiency even in areas of hard water.
- Jet Safe is suitable for septic tanks and waste water treatment systems

Use Directions

Jet Safe is made specifically for use in dishwashing machines. The actual use concentration of Jet Safe depends on many factors. The most important of these are the amount of soil on dishes, water hardness, water pressure and water temperature. Your Chemform representative will adjust the chemical strength to suit your particular needs.

The temperature of rinse water should be kept between 80-85°C for optimum performance.

Safety Information

Refer to our product safety data sheet (SDS) for more information or consult your Chemform representative for further assistance.

Packages

2x5L, 20L
