

# Megachlor

Heavy duty, foaming cleaner and sanitiser

# **Description**

Megachlor is a heavy duty cleaner that is soft metal safe. Megachlor's inbuilt corrosion inhibitors with its powerful detergents and sanitisers make it ideal for removal of soils commonly encountered in red meat, white meat, breweries, dairies, soft drink and fruit juice industries.

## **Features & Benefits**

- Heavy duty promotes rapid removal of protein and organic soils.
- Soft metal safe safe to use on aluminium, most aluminium alloys, copper, brass and stainless steel.
- Very low caustic content cleaners not burned by accidental contact with product increases productivity.
- Megachlor is approved for use in registered export meat establishments.
- Sanitiser Megachlor contains a chlorine sanitiser.
- Free Rinsing Will not leave white streaks or deposits on surfaces

## **Use Directions**

#### **Manual Cleaning**

Use Megachlor at 2-5% depending on soiling. 5% = 50ml/litre water or 20:1. 2% = 20ml/litre water or 50:1. Agitate surface manually with swab or brush allow a few minutes contact and then rinse thoroughly with fresh water.

## Foam Cleaning

Apply with appropriate foam generating equipment at 3-5% concentration. Allow foam to remain in contact for 3-5 5 minutes. Rinse thoroughly with fresh water. For special applications consult your Chemform representative.

# **Handling Procedure**

Megachlor is an alkaline product and may cause skin or eye irritation in its concentrated form. Avoid contact with the undiluted product.

Megachlor should NEVER be mixed with other chemicals as a dangerous reaction may occur. To maximise shelf life, it is recommended that the product be kept in a cool place away from direct sunlight.
