

Extreme Seal

Semi Permanent Sealer

EXTREME SEAL forms one of the most powerful bonds to any substrate, e.g. vinyl, marble or terrazzo. After forming this bond, EXTREME SEAL then sets out to build an impenetrable film that is both hard and unaffected by chemical attack. EXTREME SEAL at the same time delivers a level of gloss that will remain unaffected for the life of the floor provided the top coat is maintained correctly.

How to Use

Strip floor of old floor finish, remove stripper slurry and residue with clean water.

Apply with a clean, short stringed mop.

Apply an even coat to the floor and allow to dry.

Apply next coat leaving a 10" strip along walls and cupboards to avoid polish build up.

Apply 2- 3 coats depending upon condition of the floor.

To obtain best results, over coat with a minimum of 2- 3 coats of EXTREME FINISH.

Features	Advantages	Benefits
Ease of application	Fast to lay	Saves time
Fast drying	Dries in minutes of cleaning	Saves labour
High gloss	Visually appealing	Looks great
Scuff resistant	Cuts maintenance time	Saves re-coating & stripping

Specifications

Colour	White
Hard Water Tolerance	Excellent
Rinsability	Yes
Flammability	Non-flammable
Biodegradability	Fully
