

The superior counter mount handwash experience

GOJO CXi™ and CX™ Counter Mount Foam Soap Systems

Many people interact with your counter mount soap system...

What is their experience?

Refillable bulk soap dispensers:

A breeding ground for germs.

A recent study¹ by the University of Arizona on refillable bulk soap reservoir systems showed that **25% contained potentially harmful bacteria.**

Because of the labor and complexity involved, cleaning and sanitizing rarely occurs with refillable bulk soap systems.

Most facilities that use counter mount soap dispensers are using them because they want to project a "Class A" image of their facility. Yet typical counter mount dispensers do just the opposite:

- **Dripping spouts**
- **Messy, contaminated under-sink reservoirs**
- **Soap overflowing onto counter while refilling**
- **Broken dispensers that frequently need to be repurchased**

You don't make a good impression when your soap system is a mess.

GOJO® CX™ and CXi™.
Luxurious foam soap...

trouble free experience.

GOJO CX and CXi counter mount systems deliver rich, luxurious foam soap. That alone enhances your facility image. But there's more. You get a breakthrough counter mount system without the usual headaches – plus, a snap-in-place cartridge system that makes refills quick, easy and sanitary.

No more drips. No more mess. No more trouble. **Guaranteed.**

Touch-free or manual, the choice is yours.

GOJO® CXi™ Touch Free System

The world's first reliable, touch-free, counter mounted foam soap system.

It's an increasingly touch-free world, especially in the restroom. If touchless restrooms are a part of your strategy, you'll love the GOJO CXi Touch Free Counter Mount System. Users simply place their hand beneath the system and get a rich, luxurious lather. Three year guarantee.

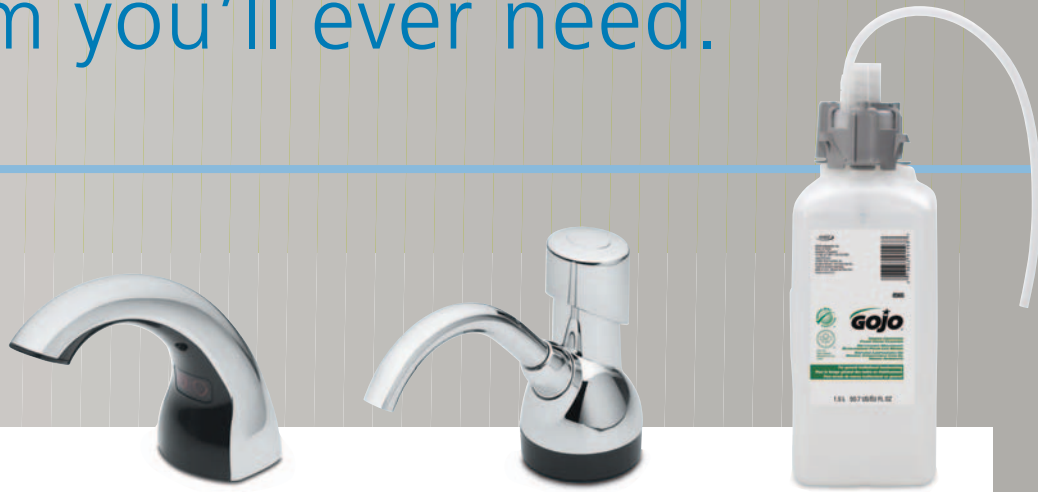

GOJO CX™ Manual System

Manual counter mount foam soap system with a lifetime guarantee.

If manual systems meet your needs, you'll be thrilled with the GOJO CX Counter Mount System. The same luxurious lather as the CXi touch free system, only in a manual system. Lifetime guarantee.

The **last** counter mount soap system you'll ever need.

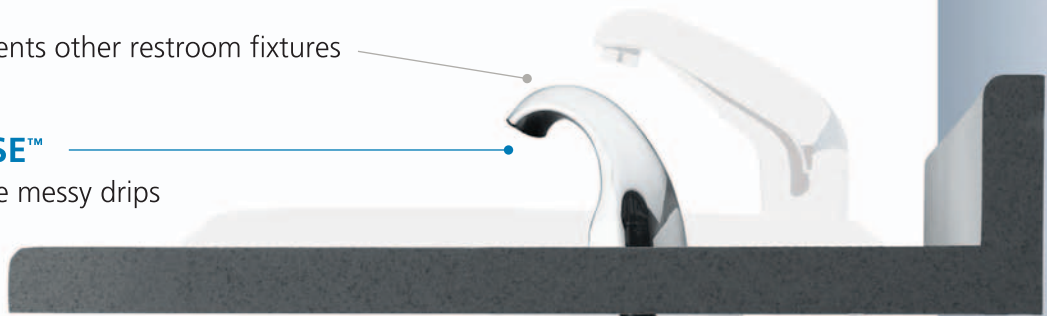

GOJO refills are sanitary-sealed for safety

- High capacity, 1500 mL refill works with either the CX™ or the CXi™ system
- Reduced labor costs
- Less chance for system to be out of soap
- Touch free and manual systems are available
- 1500 dispenses per refill

Chrome finish complements other restroom fixtures

GOJO® NEAT DISPENSE™

Design helps eliminate messy drips

Latch release makes it easy to load and unload the bottle

Audible click signals proper bottle installation

Sanitary-sealed refill and new pump with each bottle

20,000 uses from four standard D-size alkaline batteries

Neat and clean under the counter

Counter mount foam soap at your fingertips.

CCD-104,
Hand Cleaner

These products meet Green Seal's² and EcoLogo's^{M 3} environmental standard for institutional hand cleaners based on their reduced human and aquatic toxicity and reduced smog production potential.

¹C.P. Gerba. The Occurrence Of Heterotrophic Bacteria, Coliforms and Staphylococcus Aureus in Liquid Soap Samples From Public Restrooms. Unpublished observational study. University of Arizona. 2006.

²Green Seal is an independent, non-profit organization that strives to achieve a healthier and cleaner environment by identifying and promoting products and services that cause less toxic pollution and waste, conserve resources and habitats, and minimize global warming and ozone depletion. Green Seal has no financial interest in the products that it certifies or recommends nor in any manufacturer or company. Green Seal's evaluations are based on state-of-the-art science and information using internationally recognized methods and procedures. Thus, Green Seal provides credible, objective, and unbiased information whose only purpose is to direct the purchaser to environmentally responsible products and services.

³The EcoLogo Program, North America's largest and premiere ecolabelling program, provides a market incentive to manufacturers and suppliers of environmentally preferable products and services, and thereby helps consumers identify products and services that are less harmful to the environment. Established in 1988, the ECP was the second national ecolabelling program in the world.
