

# High Lustre

## Stainless Steel & Chrome Rejuvenator

HIGH LUSTRE is a penetrating silicone enriched cleaner and conditioning emulsion that polishes and rejuvenates stainless steel and chrome surfaces leaving a high shine and protective finish. Surfaces polished with HIGH LUSTRE resist finger marks and dust adherence, dust won't settle and smudges wipe away easily. With a formula that also provides effective mirror cleaning, HIGH LUSTRE is ideal to use in bathrooms to resist fog and steaming, keeping mirrors clearer and cleaner for longer. Suitable for use on: stainless steel, chrome, mirrors, granite and marble, glass including smoked glass surfaces and coloured perspex.

### How to Use

#### Stainless Steel & Chrome Rejuvenator

Use NEAT. Shake well before use. Spray a small amount on to the areato be treated and spread evenly. Buff with a clean dry cloth. For smaller problem areas, a small amount of HIGH LUSTRE may be put directly on to a cloth, rubbed on to the surface, and buffed when dry.
