

Klordex

Machine Dishwashing Powder

KLORDEX is a free flowing, chlorinated white powder, formulated especially for machine washing of crockery, cutlery and all kitchen utensils. Low foaming in operation. KLORDEX also includes a built in rinse aid.

How to Use

Keep container sealed to preserve chlorine

Machine Dishwashing	Use 120 grams (approximately ½ teacup) for each 30 litre capacity. Use 60 grams for each half hour of operation.
General De-staining	Dissolve 200 grams of KLORDEX to each five litres of water. Allow stained items to soak for 30 minutes. Remove and rinse thoroughly.

Features	Advantages	Benefits
Built- in sanitiser	Kills germs	Peace of mind
Excellent as glass soaker & de-stainer	Cuts number of products needed	Lower stock levels
Free rinsing	Does not spot or streak	No re-washing
Harsh alkali free	Will not damage materials cleaned	Excellent degreaser
